His assets consist of real estate valued at \$3,000, and personal property, claimed as exempt, amounting to \$250.—Co. Bluffs Nonpareil.

Mrs. M. A. Jones was most agreeably surprised on last Wednesday evening by a number of her former school pupils who called on her and spent the evening. Mrs. Jones was much loved by all her scholars who still have a warm spot in their hearts for her. The junior publisher remembers very well the time when Mrs. Jones was teaching in the old brick school house. How kind and considerate she was, especially when we were late at school. We had to walk in from the country, a distance of a mile and a half. We remember how prettily the black boards were trimmed with vines drawn with colored chalk by her skillful hand, and how anxious we were for a piece of that chalk.

A GRATUITOUS INSULT.

The Bulletin states that the republicans in Crawford "settle it by voting for the man who can drink the most beer."

The Bulletin must be hard up for argument when it adopts such tactics. But care should be exercised lest his party actually believe this and not leave enough democrats to hold a caucus as republicanism might prove very popular with them.

The Des Moines Leader of July 12 has the following to say of the Rock Island branch as contemplated to be built, probably into Sioux City:

"From a gentleman, prominent in the councils of the Rock Island, it was learned yesterday, that a corps of engineers in the employ of the Rock Island, quietly surveying a line from Guthrie Center in a northwesterly direction. The route laid out crosses the Northwestern main line at Carroll, and continuing north and west, crosses the Maple river line near Breda. From Breda, the survey bears nearly westward, passing about midway between Dow City, in Crawford county, and Ida Grove, in Ida County. Thence it bears north and west into Woodbury and Plymouth counties."

It will be noticed that the line is to be surveyed in Crawford between Dow City and Ida Grove. Crawford county will soon be a net work of railway lines.
