**Town Lots in New Towns.**  
 Merchants, Doctors, Lawyers and all classes of profession, business or trade, who are looking to a change of location will find it to their material advantage to secure their new locations at one of the new towns on the lines now being constructed by the Chicago & North-western Railway. They are in sections of the country that have hitherto been without adequate railroad and proper market facilities.  
 The surrounding country is enormously rich, and the towns are all bound to be thrifty and prosperous. Any of them will prove a sure money maker for speculation or business location.  
 These towns are all owned and managed by the Railroad Company, and the original low prices still prevail as an inducement to settlement.
