STRIKE ABOUT OVER.

Guards No Longer Necessary on St. Louis Street Cars.

POLICE ARE RETURNED TO BEATS.

Deputy Sheriff Marsh, Wanted on Charge of Homicide, Disappears—Police Lieutenant Stack Contradicts Witnesses in Bohne Case—Verdict of Coroner's Jury.

St. Louis, June 15.—The police department yesterday withdrew its officers from all the cars and power houses of the St. Louis Transit company and returned them to their regular beats. The Transit company continues to augment its force of nonunion employees and its transportation facilities at a rate that promises to see the system in full swing before many more days have passed.

Much interest is being shown by the general public in the coroner's inquest at present in progress over the bodies of strikers and a citizen killed last Sunday by members of the sheriff's posse. The testimony adduced does not deny that Deputy Sheriff Marsh shot Frederick Bohne, the citizen in question, but the witnesses disagreed as to the deputy's provocation for shooting. There was testimony from about 85 witnesses, consuming three hours, after which the jury returned a verdict of homicide. A sensational feature of the inquest was the conflicting statements made by witnesses as to whether Police Lieutenant Stack ordered the deputy sheriffs to fire on the crowd. Several of the deputies testified that he ordered the posse to shoot, while Stack declared he did all in his power to prevent the deputies from firing.

The disappearance of Deputy Sheriff Marsh was a startling development at the inquest. It is believed that Marsh has left the city. No further search will be made for him, probably, unless friends of the dead man seek to prosecute him, the verdict of the coroner's jury being considered practically an exoneration.

The day passed practically without incident.

Knights of Honor in Session.

BUFFALO, June 15.—At yesterday's session of the supreme lodge of the Knights of Honor a telegram of fraternal greetings was received from the Knights and Ladies of Security, in session at Topeka, and an appropriate response ordered. The election of officers for the ensuing year resulted in the unanimous choice of all the present incumbents. Milwaukee was selected as the place of next year's meeting, which will begin on June 11.

Eight Miners Killed.

CANMORE, Alberta, June 15.—A terrible gas explosion occurred in Canmore coal mine yesterday, resulting in the instant death of eight men and the injury of several others. The names of the known dead are: Proper Daye, Amade Berardo, Tony Bollins, Jr., Peter Caulfield and four other foreigners whose names are not known. The cause of the explosion is supposed to have been the carelessness of one of the miners in opening his safety lamp.

Injunction Is Denied.

St. Louis, June 15.—A decision of importance was handed down yesterday by Judge Thayer in the case of the American School of Magnetic Healing against J. M. McAnulty, postmaster of Nevada, Mo. The opinion holds that the direction given by the postmaster general to withhold mail sent to complainants and return it to the senders, marked "fraudulent," is legal. An injunction restraining McAnulty from obeying the order was denied.

Mrs. Gladstone Dead.

LONDON, June 15.—Mrs. Gladstone, widow of William E. Gladstone, the English statesman, died yesterday.

BANKERS END COVENTION.

Iowa Men Elect Officers and Pass Important Resolutions.

DES MOINES, June 15.—The Iowa Bankers' association yesterday elected officers and ended its convention. President, E. B. Huxford, cashier of the Cherokee State bank; vice president, C. B. Mills, president of the State Security bank; secretary, J. M. Dinwiddie, cashier of Cedar Rapids Savings bank; treasurer, L. F. Potter, cashier of the First National bank, Oakland.

Two important resolutions were adopted unanimously, as follows:

"Resolved, That it is the sense of the Iowa Bankers' association that the present federal bankruptcy law has accomplished all that its most ardent advocates can wish and that its further retention as a federal statute is a menace to the business of the country, depriving many honorable business men of the credit their integrity and business ability would entitle them to because of its use by the unscrupulous and that we advocate its speedy repeal by congress.

"In view of the fact that the attorney general of the United States has ruled that the money order business of express companies is an incident to their business and that such companies are not liable to taxes the same as banks, be it

"Resolved, That we ask our senators and representatives that in any modification that may be made of the revenue law that banks be taxed no higher than other concerns doing a competitive business."

New Railroad in Sight.

DES MOINES, June 15.—The Iowa Loan and Trust company has become trustee for the Gulf and Manitoba railroad, which is a Minnesota corporation organized for the purpose of building a railroad from Duluth to the south, and has been granted a trust deed for \$21,000,000 to cover an issue of bonds which will be issued for the purpose of building the road. A corps of engineers is said to be in the field in different parts of Iowa and Minnesota, surveying the most suitable route for the road from Duluth to Kansas City, which are the proposed termini of the road. Under the trust deed some bonds have already been issued and disposed of for the purpose of commencing operations on the road and bearing the first expense.

Lieutenant Harry D. Chapman has been made president of the temporary organization and Lieutenant Colfax Mahoney secretary. As soon as possible a charter will be secured from one of the national organizations and the local veterans will then form a permanent organization.

Eight hundred persons saw the contests.

CHINA IN A FERMENT.

Every Portion of Empire In a State of Restlessness.

BRITISH AND FRENCH JEALOUSY.

Collision Is Narrowly Averted at Tien Tsin—Report of Destruction of Japanese Legation Confirmed—Mohammedans Clash With Europeans.

LONDON, June 15.—Observers at Shanghai and Tien Tsin think there is a great deal more trouble ahead for the concert of powers than merely reaching Pekin with 2,240 men. Serious disturbances are taking place at Yung-Nan-Fu and Meng-Tse as well as at other points at a considerable distance from the capital.

The whole Chinese empire seems to be in a ferment. The intentions of the empress dowager are still equivocal, with a balance of testimony on the side of a determination to expel the appropriators of a part of her country or to lose her dynasty in the attempt. It is related of her that on Monday following the murder of the chancellor of the Japanese legation, she was roused to a sense of danger and went personally to the Yung Ting gate of Pekin, where she advised the rioters to disperse. But she took no steps to apply force and the appearance of things is more threatening than before. While Admiral Seymour, with the international relief column, is forcing his way to Pekin, several of the powers are arranging largely to reinforce their details at Tien Tsin. Germany proposes sending 1,200 men. Great Britain sent 600 from Hong Kong yesterday and 400 will go Sunday. Italy has ordered 1,000 to hold themselves in readiness.

Russia, according to a St. Petersburg dispatch of Wednesday, has decided to bring her force at Tien Tsin up to 6,000. Thus the combined forces at Tien Tsin will probably soon be about 10,000 men.

The explicit statement made yesterday afternoon in the house of commons by the parliamentary secretary of the foreign office, Mr. Broderick, with reference to the identity of opinion among the powers on the question of the application of force and the method of applying it, is accepted by all the morning papers as quite sufficient for the present and the hope is generally expressed that nothing will happen to diminish the harmony. An incident, however, has already occurred involving the British and French at Tien Tsin, which nearly ended in violence. A dispatch from Tien Tsin says: "For some days the French and Russian authorities have been jealous because of the supposed facilities given the British authorities by the British employes at the China railways. Wednesday some French marines attempted to take charge of an engine required at the front. Locomotive Inspector Weir refused to give up the engine and a Frenchman attempted to bayonet him. Weir caught the muzzle of the rifle and the bayonet passed over his shoulder. For a moment serious trouble between the British and French was imminent, but the prompt action of the consular and naval officers, backed by the American consul and the railway officials prevented a collision."

Later reports from Tien Tsin confirm the news of the burning of the Japanese legation, but the report that a minister has been murdered is not confirmed. It is regarded as certain that the Japanese government will take active steps on account of the murder of the chancellor of the Japanese legation.

A telegram received from Yunnan Fu says that the English and French missions there have been burned and that the foreign residents have taken refuge in the viceroy's residence. The trouble is reported to be due to French intrigues.

More Russian Are En Route.

WASHINGTON, June 15.—The following cablegram has been received from Admiral Kempff:

"TONG KU, June 13.—Secretary Navy, Washington: Twenty-five hundred men are on the road to Pekin for the relief of the legations; 100 are Americans; English and Russians in large majority; all nations here represented. The viceroy at Tien Tsin gave permission to go there; railroad being repaired as force advances. Russians now sending soldiers from Port Arthur with artillery. KEMPF."

Russians Land Guns.

TIENTSIN, June 15.—The Russians have landed four 8-centimeter guns. These, with the 1,700 men, will start on the march for Pekin today. A train filled with searchlights patrols the line between Tien Tsin and Taku. The opinion is growing that the imperial troops will attack the international column near the capital, probably at Feng Tai.

Maccabees Elect Officers.

GRAND RAPIDS, June 15.—Both branches of the Maccabees spent the whole of yesterday in the election of officers. Major N. S. Boynton was re-elected great commander by a large majority over Devere Hall of Bay City. The K. O. T. M. great camp will conclude its work today.

cool weather prevails in the entire Jim valley and will benefit crops, which have suffered greatly from drought.

BOTHA GETS AWAY.

Boer Commandant Lost Nothing in Armament.

OPENS EYES OF THE BRITISH.

England Awakes to the Fact That War Is Not Yet Over—Boer Bulletin Announces Annihilation of One of Buller's Regiments—Foreigners Still Arrive.

LONDON, June 15.—That Commandant General Botha should have been able to stand for two days against Lord Roberts and then to retreat without losing any guns or having any of his men captured is taken to mean that he has a force which the British must still reckon as formidable when acting defensively. The pacification of the whole Transvaal, especially the wide spaces far from the railway, is reckoned a business requiring months rather than weeks. Meanwhile everything goes well for the British arms.

A Boer bulletin issued June 13, at Machadodorp, said: "Both wings of the federal forces touched the advancing enemy at 10 a. m. east of Pretoria. Fighting continued until dark. The enemy, though in overwhelming numbers, were checked along a line of 36 miles and the burghers succeeded in driving back their right wing five miles. Two burghers were killed and ten wounded."

Another Machadodorp announcement is that the first regiment of General Buller's force attacked Almond's neck and was "annihilated," but as the British were in overwhelming force the burghers were compelled to abandon the neck.

Two steamers arrived at Lourenço Marquez yesterday bringing several tons of supplies consigned to Portuguese merchants, but destined for the Boers. One hundred Americans, Frenchmen, Germans and Hollanders arrived there by various steamers en route for the Transvaal. Mr. Crowe, the British consul general, has large stocks of clothing for the British prisoners, but he will not forward these until he gets assurances that the Boers will not take them for their own use. General Buller will be unable to advance further until he gets supplies.

General Rundle had a sharp skirmish at Fickburg, June 12. The Boers had been aggressive along the whole Fickburg-Senekela line and attacked Fickburg in force. The British outposts retired to the village. General Rundle held the attention of the Boers in front with two guns, while the yeomanry were sent around their rear and drove them off with a loss to the British of three wounded. Two patrols were also wounded.

President Steyn is at Unikop. His presence is supposed to account for the Boer activity.

Roberts and Buller Report.

LONDON, June 15.—The war office is in receipt of the following report from Lord Roberts, under date of Pretoria, June 13: "The enemy evacuated their strong position during the night and have retired to the eastward. Buller's force and mine have afforded each other mutual assistance. Our occupation of Pretoria caused numbers of Boers to withdraw from Laing's neck and Buller's advance to Volksrust made them feel their rear would be shortly endangered." General Buller reports as follows:

"LAING'S NECK, June 14.—General Lytton yesterday received the formal submission of the town and district of Wakkerstroom, which the enemy is believed to have completely evacuated."

MEXICANS WHIP YAQUIS.

General Torres Returns From Expedition to Guamechita.

HERMOSILLO, Mex., June 15.—General Torres has returned from an expedition to the country around Guamechita, where the Yaqui Indians have been committing many depredations on the settlers along the Yaqui river. At Vinerama a band of Indians was encountered by the cavalry of General Torres and after a brief fight three Indians were killed and ten taken prisoners. In another engagement in which the pursuing cavalry took part, two Indians were killed and four men and five women and five children were taken prisoners.

A few days ago the Indians attacked the men of Miguel Lopez. A number of ranchmen barricaded themselves in the principal ranch building and a hard fight ensued. The building was finally set on fire and the seven cowboys perished in the flames or were killed. After the fight with the cowboys the Indians burned the balance of the ranch buildings and drove off several hundred head of cattle into the mountains.

Soldiers Suffer From Cold.

LONDON, June 15.—The London Daily Express correspondent cables from Machadodorp, 14 miles east of Pretoria, under date of June 10, in connection with the capture and destruction by the Boer general, Dewet, of 3,000 suits of clothing: "The British soldiers complain much of cold. There is much suffering among them and the hospitals are full of the sick and exhausted. Sickness among the horses, too, is increasing, thousands of animals having succumbed at Kroonstad."

STATUS OF PORTO RICO.

Court Holds It Is a Foreign Country So Far as Constitution Is Concerned.

NEW YORK, June 15.—Judge William Townsend, in the Southern district court of New York, yesterday handed down a decision in the case of John H. Goetz & Co. vs. the United States, in which he declared the treaty of Paris valid and that the status of the people of Porto Rico is that of inhabitants of a foreign country as regards the constitution of the United States and within the meaning of tariff acts. Judge Townsend held that Porto Rico is a part of the United States so far as other countries are concerned, but so far as the constitution of this country is concerned is a foreign country, and that the United States can govern it without subjecting it to the burden of national taxation, and that the status of the inhabitants will remain unchanged until congress shall determine it.

The decision affirms the decision of the board of general appraisers assessing a duty of 35 cents per pound on 100 bales of leaf tobacco.
