**RIDES INTO THE WEST.**

**Gov. Roosevelt Talks to Enthusiastic Crowds in Kansas.**

EMPORIA, July 3.—Governor Roosevelt's speech in Emporia was the longest delivered during the trip through Kansas. The governor said: "It was not my intention to say a word about politics on this trip, but I don't know that I can very well help it, because this year the issues that are at stake in politics are those in which I believe with my whole heart and soul. Now, why are you here today? Because you expanded over Kansas. In 1893 this territory was acquired under the Louisiana purchase; and many good people of the northeast said it was perfect folly to buy this country—we never could expand into it—we ought not to take it away from the Indians who had it. Well, you went ahead; you did expand; and you are here now, and the sentiment against acquiring this territory is dead, exactly the same as the question whether we are to abandon the work that we did last year and the year before is a dead question. You sent your sons to the Philippines; your sons' blood waters the soil of those islands. The flag is there and it won't come down."

NEWTON, July 8.—Governor Roosevelt addressed an enthusiastic audience of 2,000 auditors. It was the first time the governor had left the train since leaving Chicago, all his previous speeches having been made from the rear platform of his private car. His address was along the same lines as those delivered at Topeka and Emporia.

**WOMEN IN TROUBLE.**

**The Approach of Motherhood is the Occasion of Much Anxiety to All.**

Every woman dreads the ordeal through which she must pass in becoming a mother. The pain and suffering which is in store for her is a source of constant anxiety, fear and dread, to say nothing of the danger which the coming incident entails. The joyous anticipations with which she looks forward to baby's coming gives way to an indescribable dread of the ordeal when she fully realizes the critical and trying event which will soon approach and have to be endured.

Women should hail with delight a remedy which insures to them immunity from the pain, suffering and danger incidental to child-bearing. Such a remedy is now offered, and women need not fear longer the hour of childbirth. "Mother's Friend"—is a scientific liniment—and if used before confinement, gently and surely prepares the body for the great requirements and changes it is undergoing, insures safety to both mother and child, and takes her through the event with comparative ease and comfort. This wonderful remedy is praised by every woman who has used it.

What woman is not interested in "Mother's Friend"? This wonderful remedy has been tested and its priceless value proven by the experience of thousands of happy mothers who have used it during the most critical period of woman's life—the approach and culmination of motherhood.

It has won their everlasting praise, for it gave them help and hope in their most trying hour and when most needed. Every woman may some day need "Mother's Friend." The little book, "Before Baby is Born," telling all about it, and when it should be used, will prove of great interest and benefit to all expectant mothers, and will be sent free to any address upon application to the Bradford Regulator Company, Atlanta, Ga.
