Honest Advice!

"THE BOYS" are not in the clothing business and do not expect to be.

They have purchased this stock at a ridiculously low figure and expect to close it out by offering it at a price that will compel purchases. The margin of profit is small. They do not expect much, but they want quick returns. For this reason the sale prices will be so low as to make it an object for you to buy at once. All sales in this store for cash only, but butter and eggs and country produce are the same as cash. Bring in your produce--we pay the highest market price and exchange for clothing at half wholesale cost. Eighteen days only for this great sale. Our big Department store is still doing business in Dry Goods, Groceries, China Glass and Tinware. **Goods Always the Best.**
