The theme of a business men's association being organized here has been discussed considerably of late. It would seem that if an association was organized here and the people would take a little of their time to meet and discuss the best interests of the town, also of the business men, a great deal of good could be accomplished in various ways. For instance, there are a great many ways of improving and beautifying the town which would naturally be brought up and accomplished under such an organization, and another object would be to protect the business men, each in his own business, and from such influences as are unworthy but every community has to contend with more or less. The old adage that "a house divided against itself can not stand," is a true one, and the motto, "In union there is strength," is also true. The Times would urge the necessity of an early organization of a business men's association.
