## The Fourth is Coming

HEAR YE  
HEAR YE

**But we are Here, and not Only Here Ourselves,**

BUT WITH THE NEATEST LINE OF

Pianos, Watches, Rings, Broaches, Stick Pins, Watch Chains, Cuff Buttons, Silver Knives and Forks, Clocks, Sterling and Plated Spoons, Silverware, Mexican Hand Carved Leather Goods, Photograph and Optical Goods that you have had the opportunity of to examine in many a day. Now just a word for a few of our goods. In the first place let us consider Pianos. You are no doubt aware that it has been said that we handle pianos as a side line and are not exclusive dealers. Allow me to second that motion, and also permit me say amen to it. Can you see the point? We do not need to depend entirely on piano sales because we are selling a fine line of Jewelry also, therefore we can sell a piano and not charge the enormous profit an exclusive dealer does. We are at a less expense than they are. Don't be mislead for its quality you want as well as price. I tell you frankly that if anyone says the Ivers & Pond Pianos is a cheap constructed instrument, they either don't know or they deceive themselves. It is a fact that this piano sells side by side with the Steinway, Knabe or Chickering as their equal and often their superior. We also handle a fine line of pianos from \$150 to \$300.

### Don't Forget Our Watch Dep't.

We have sold, and are still selling, more watches than we have ever sold in the same length of time in our business history. And please remember this, that we do not, and have not advertised watches at a figure that it is impossible to sell a thorough, first-class line of goods for. We are striving to build a reputation for the very best goods in all our branches, and the only way we can account for the large watch sales is because the word GUARANTEE means to us what Webster meant it should when he put it in his dictionary.

### Of Course You Hear of Set Rings

Well, about all we have to say regarding them is that we have as neat and fine a little line as you have ever seen in your life. Don't fail to see them. They make an excellent present you know. And plain and engraved rings. Well just come and see them, they can't be excelled. We are also able to show you an exceeding nice line of Ladies' and Gent's Watch Chains of all the latest designs. and our line of Charms is hard to equal, let alone excel.

### We Have Over 700 Copies of Sheet Music at Only 10cts a Copy

We also have a beautiful line of Secret Heart Neck Chains and Locketts. You should see our stock of Cuff Buttons also. And as rich a line of Broaches as you have ever seen. Watch Crystals only 10 cents. And don't forget the nice hand engraving you get free on all goods you buy of us. When your Watch gets sick give it a dose of our repair department tonic. One dose cures. Our guarantee means protection to our customers and don't you forget it. We are going out of the Bicycle business and have one \$50 American wheel left, with a \$2.50 gas lamp and \$5 worth of Carbide and a \$1.25 cyclometer. Will sell the whole outfit for \$30. Be sure and call and see us.

Jeweler and  
Optician.
