"Clubs are Trumps."

Penelope day was the signal last Tuesday for a large meeting at the home of Mrs. Ira Gilmore. The hostess had invited a number of guests to meet with the club and they as well as the members had a very pleasant and social afternoon. About 5 o'clock Mrs. Gilmore assisted by Mrs. Goudie and Mrs. Howard Wilson, served an excellent two course supper. "Pigs in Blankets" and Waldorf salad being among the many good things provided by the hostess. Mrs. Gilmore has the true instinct of hospitality and her guests always have a good time at her home.

The Cotertie club had a small but enjoyable meeting with Mrs. Wescott on Thursday afternoon Mrs. Wescott had provided a very jolly game one that taxed the skill and ingenuity of the guest to the utmost. Mrs. Wheeler assisted Mrs. Wescott in serving very nice refreshments and the club did not break up until dusk. Mrs. Wescott had kindly included a number of guests out side of the club, all of whom had a lively care free afternoon.

The Bulletin relates with pleasure the fact that five thousand employees of the Illinois Central are to have a raise of wages. The Bulletin forgot to mention that this was but another evidence of republican prosperity.

The last issue of the Bulletin devotes more than a column of space to its various attacks on the Review. Verily the Bulletin is putting up a splendid campaign for democratic principles. With the aid of this material and some left over plate borrowed from the Review the weakly Bulletin was able to get out on time.

Our readers will have noticed that this year the board of supervisors have decided to let the bridge contract for a period of two years. Last year it was not thought necessary to let a contract at all and the work was given to Mr. Hermann Grill without contract. Just what prompts the board to make this radical departure at this time it is hard to tell. Heretofore the contract has never been made for more than a year and it would seem to us that as the present prices of lumber and materials are high, it would be good business policy not to extend the usual time limit of such contracts. This is not a partisan question, it is simply a matter of business. The price of material is much more apt to go down than up and this is a poor year for long time contracts. The board undoubtedly thinks that by making a long time contracts it can get it cheaper, but we are inclined to think otherwise and this is the judgment of a number of good business men with whom we have talked on the subject.
