Wants \$5,000 Damages.

The town of Vail has been sued for \$5,000 damages by one John Perfield, who received injuries in a runaway in December. He with other employees of the Iowa Telephone Co. were driving east along the railroad, when the buggy was upset at the stock yards, and the team ran away. Perfield was thrown out and received a broken leg.

The suit was first brought against the railroad company, as it was claimed the team was scared by the stock scales near the road, but that case was dismissed, and papers have been filed for suit against the town of Vail.

Those whom we have talked with say there is small grounds for any case.—Vail Observer.

Crawford County State Bank.

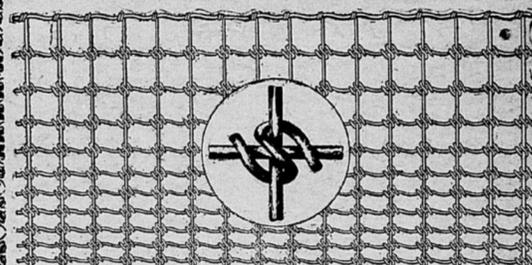

DENISON, IOWA.

The Best Security for Depositors. Farm Loans at Five Per Cent Interest.

This bank is incorporated under the laws of the State of Iowa. This gives the best security to all depositors, not only to the amount of stock, but the personal property of each shareholder is hidden to the amount of his share for any loss to the bank. Incorporated banks are under the control of the State Auditor, who can at any time examine the books and according to his investigation the published statements are true. Depositors in an incorporated bank have more security than the one deposited in the officers. They have the best security, because the capital stock can not be used at pleasure for outside speculation and investment.
