The city council met in special meeting Saturday night and transacted considerable business of importance. Among other things was the report of the financial committee. This report will be published in full in our next Tuesday's issue. It will show exactly what has been done toward the improvement of our city, and also all the revenue derived. Mr. Jas. Armstrong was appointed as city water collector with a salary of \$40 per month. In addition to collecting the water rents he will act as special police from six in the evening until 10:30. The impression seems to have gone out that the city will do away with the meter system. This is entirely wrong; those who have meters will not be molested in any way, the council will merely followed the ordinance adopted last year—the charging of a minimum rate, and for all over that amount is metered.

Assistant State Veterinarian.
Dr. Hal C Simpson received a letter last week from Gov. Cummins notifying him of his appointment as assistant state veterinary surgeon. We congratulate him upon the appointment.

Mr. Marion Cole, of Dow City, was called to Denison on business today.

It is not too early to begin planning for the observance of Memorial Day. While the day is to do honor to the departed old soldiers our people should participate with patriotic devotion. It should be one of the great days of all the year. We should have public speaking and all the solemn pomp that goes to impressing upon the rising generation the holy lessons of the past. The business men's association should take this up at once and cooperate with the W. R. C. and the Sons of Veterans toward making the next Decoration Day a memorable one in Denison.

Supt. H. H. Savage and Miss Garret Romans have returned from the State Oratorical contest held at Anamosa last Friday. Miss Romans made an excellent showing and Supt. Savage is of the opinion that she was entitled to better. Her two opponents were young ladies of her age but who had made a great amount of preparation and who had also dressed to enable them to appear at a younger age. This fact alone would have a bearing with the judges. The friends of Miss Romans feel proud of the record however and feel that future rewards await her.

Not True.
A rumor, with a seemingly malicious intent, is being circulated in my home community, accusing me of being expelled or suspended from the medical department of the State University of Iowa, during a slight, but inflammation described, trouble between a very few of my classmates and the medical faculty of this institution, which occurred in the month of February of the first term of the second semester of the school year 1901 and 1902, the present school year.
The above named accusation is false as is any other report of a like nature relating to me, as my connections with this institution have never been severed since my matriculation as a student here. This can be satisfactorily proven by reference to the secretary of the medical faculty.
Persons continuing such reports will be liable for their statements.
