Crawford County State Bank, DENISON, IOWA.

The Best Security for Depositors. Farm Loans at Five Per Cent Interest.

This bank is incorporated under the laws of the State of Iowa. This gives the best security to all depositors, not only to the amount of stock, but the personal property of each shareholder is held to the amount of his share for any loss to the bank. Incorporated banks are under the control of the State Auditor, who can at any time examine the books and according to his investigation the published statements are correct. Depositors in an incorporated bank have more security than the one deposited in the officers. They have the best security, because the capital is not tied up at pleasure for outside speculation and investment. The Crawford County State Bank is the best incorporated banking institution in the County. A general banking business done.
