### CHEMICAL BOYS TAKE A RUN.

Decide to Take a Little Exercise, and go up Main St. Like the Wind.

The chemical engine company was out last evening for a little practice and drill, also breaking in some of the new members. A little fire was started up in the north part of town on a vacant lot and the boys started from Romans warehouse at the top of the bell. The run was about four blocks and the distance was covered in pretty good shape, some of the boys a little winded, but otherwise in good shape for duty. We think this idea a good one, and should be repeated more frequently.

### MANNING'S NEW CREAMERY.

Fine New Factory Completed and Ready for Business.

The Manning Creamery Company has just completed its new creamery at that place. It is a commodious brick structure, two stories, and is constructed in a thorough, substantial and workmanlike manner throughout. The walls and floor of the first story are cement-insuring permanency and cleanliness. The churns separators and other equipments are of the best, and it will rank well up as one of the best equipped creameries in the state. The Manning Creamery Company is composed of old and experienced creamery men, and the quality and quantity of the butter which it puts upon the market is something of which it may well be proud.

The election to extend the city limits has been a very quiet affair. Up to the time of going to press there have been 210 votes cast. The predictions are that the proposition has been defeated. Mr. August Beutel of Washington twp returned today from Chicago where he attended the great Short Horn Cattle sale of the Dryden and Edwards herds Monday and Saturday last. He bought two imported heifers one imported yearling bull and one full strain Scotch Short Horn cow all pedigreed at an average price of over \$500.00 each. He was offered \$1000.00 to leave the cow purchased by him for \$530. He is much delighted with his purchases and says he could sell the four animals today for twice what he paid for them. These added to his herd of first class short horns makes the Beutel herd one of the best in the country. He expects to sell in the future in large cities where he can sell to breeders who want the best on the market. The Beutel herd will be heard from and help make Crawford Co. as famous in the Short Horn line as it now is of the Polled Angus breed.

Tomorrow evening at the home of Mr. Frank Bryan, in Paradise township will occur the marriage of Mr. Harry Carpenter and Miss Maud Bryan Rev. F. W. Bateson, performing the marriage ceremony. Both these young people are so well and favorably known to Denison people that comment seems unnecessary. Mr. Carpenter is one of the proprietors of the popular priced book store and is also express agent, and is a model young man in every respect. He has grown to manhood in our midst, has taken a prominent part in social and religious work, and his friends are numerous. Miss Bryan is a graduate of our city schools, and for some time has been one of the counties most successful teachers. She is a lady of refined tastes, intelligent mind, and is very popular among the young people.
