### MELITA IS ORDERED OUT

Troops Sent to Paterson to Guard Mill Hands.

SINK MILLS FORCED TO CLOSE.

About Ten Thousand Hands Are Consequently Thrown Out of Employment—Fire Department Scatters a Mob by Streams of Water.

Newark, N. J., June 20.—Governor Murphy at midnight ordered a part of the First regiment of infantry and the entire first troop of cavalry to Paterson to preserve order. The troops will be put on guard duty at the mills.

All but three of the silk mills in Hudson county have closed down. About 10,000 hands are consequently out of employment. A mob of 500 men and women gathered at Simon's mill in Union Hill. Police Captain Knight and his five men, with a few citizens, kept the mob in check until the fire department was called out. The firemen turned eight streams of water on the crowd and scattered it. Seventeen people were arrested.

Paterson, N. J., June 20.—In the main this was a quiet day in this city. The most important event was the suspension from duty of chief of police Fred C. Graul by Mayor Hinchliffe and the assumption by the mayor of the duties of that position. Looking for a leader, the rioters did nothing when a majority of the mills they closed Wednesday by their violence resumed work. The police are under orders to shoot straight if they should have another encounter with the rioters and the mayor has had copies of the riot act distributed.

SETTLEMENT NOW POSTPONED.

Calling of National Miners' Convention Suspends Negotiations.

Wilkesbarre, Pa., June 20.—Now that the call for a special national convention has been made for July 17, it is not expected there will be any very important developments in the coal strike situation until that time.

A little dissatisfaction was expressed by some of the strikers that the date of the convention was set a month hence. They feel that something ought to be done without waiting thirty days. While the leaders around strike headquarters will not talk, it is believed the fixing of the date for July 17 was a wise move. A total suspension, or even a partial curtailment of production, would have a serious effect on the business interests of the country, and it is hoped that during the next month some plan may be devised by which such a state of affairs can be avoided. A total suspension of coal mining is practically impossible, because the United Mine Workers' organization could not control all the miners in the country.

Conditions in the anthracite region remain unchanged. The entire coal belt was extremely quiet.

Strikers Use Dynamite.

Rosnoke, Va., June 20.—The bodies of Henry Hartson and Peter Hartson, two miners, reached here from Williamson, Va., where they were killed by an explosion of dynamite in a mine yesterday. A miner who accompanied the remains is reported as having said that about twenty-five miners were at work in a mine near Williamson when a crowd of strikers, armed with rifles, demanded that they should come out. Upon the miners refusing to obey the strikers threw a quantity of dynamite into one shaft, which exploded, killing five men. As soon as the survivors came out of the shaft the strikers fired upon them, injuring several, though none was thought to be fatally shot.

Ultimatum to Kansas Operators.

Pittsburg, Kan., June 20.—The trouble between the miners and operators of this district has almost reached a crisis. The miners' executive committee has been in session here three weeks, without any concessions being made on either side. An ultimatum has been drawn up by the miners and will be presented at once. It is generally conceded that a strike is more probable than ever.

Iowa Miners Opposed to Strike.

Des Moines, June 20.—President J. P. Reese of the Iowa district of United Mine Workers is opposed to a strike in this state and predicts that none will take place. Other union officers are also said to hold similar views. The miners, who number 15,000, are under contract with the operators at an agreed scale for one year from April 1 last. The field is thoroughly organized.

Strike of Boilermakers.

Kansas City, June 20.—Thirteen boilermakers employed in the Union Pacific shops in Kansas City, Kan., struck yesterday, asking an increase of pay from 32 to 33 cents an hour. Joseph Roberts, master mechanic at the shops, said that so far as he knew his men had no particular grievance, but that the strike was probably out of sympathy for the men at Omaha and Cheyenne.

Water Cure Proves Fatal.

Guthrie, Okla., June 20.—The authorities of Pottawatomie county are investigating the death of Arthur Pecor, aged fourteen, near Shawnee, whose death is alleged to have resulted from attempts of several companions to treat him with the water cure. He was submerged in the Canadian river until his lungs and stomach were filled with water, resulting a few days later in his death.
