"The Carroll yards were completely blocked Saturday night, all on account of the recklessness of the operator who turns the night trick in the block house across from the express office. The train dispatcher at Boone and the operator got into a jangle over the wire and the outcome was that the operator dashed a pail of water on the key board, burning out all the wires, severing all communications with Carroll and points west except the block house at the east end of the yards. Mr. Operator was jailed until the next day and is now without a job. Too much booze is assigned as the cause."—Herald.

BUGLESS POTATOES.

Along with the horseless carriage and the smokeless gunpowder has come the bugless potato, a sample of the vines of which has been left at our table by Mr. W. H. Adams, of this city. The vines are a very light shade, and are tinted like a foliage plant. Mr. Adams has had two years experience in raising them, and says they are a fine variety of potato, and true to their reputation as being without bugs. They will doubtless prove a formidable rival of the old-time buggy tuber.—Jefferson Bee.

J. P. SCHOLTZ KILLED.

Early Tuesday morning the mangled remains of a man was discovered about one hundred rods west of the Northwestern depot on the east bound line of the double track, and had evidently been run over and killed by some east bound train during the night. The remains were turned over to undertaker J. U. Wise for burial.—Dow City Enterprise.
