Crawford County State Bank

DENISON, IOWA.

The Best Security for Depositors. Farm Loans at Five Per Cent Interest.

This Bank is incorporated under the laws of the State of Iowa. This gives the best security to all depositors, not only to the amount of stock, but the personal property of each shareholder is held to the amount of his share for any loss to the bank. Incorporated banks are under the control of the State Auditor, who can at any time examine the business, and according to his investigation the published statements are made. Depositors in an incorporated bank have more security than the confidence imposed in the offices. They have the best security, because the capital stock can not be used at pleasure for outside speculation and investment. The Crawford County State Bank is the best incorporated banking institution in the County. A general banking business done.

HAPPENINGS AT VAIL

By an oversight the name of W. M. Byrnes the furniture man of Vail was left out of the Vail writers which appeared a few weeks ago. The above named gentleman is one of the hustlers of the town of Vail, he is wide awake and progressive, and enjoys a patronage which is extensive, and still extending, in other words he is up-to-date and by conducting his store upon modern principles, and is making a decided success in his business venture, he carries a large stock of goods having nearly everything needed by the family and all goods are of the best quality. Mr. Byrnes is a gentleman who is entirely deserving of the confidence placed in him by the people, he is a quite an assuming man, one who never pushes himself forward and yet he is deserving not only of the confidence and respect of the people, but also to the high position as a successful and go-ahead merchant, and as an honorable and straight forward citizen.

New Facilities for Reaching the Pacific Coast.

The trans-continental lines have been making extensive efforts lately to improve their services to and from the Pacific coast, the latest development announced being that the Personally Conducted feature of the Chicago & North-Western and Union Pacific service is to be expanded and extended to include personally conducted excursions to the coast twice a week from Chicago via Omaha, Denver and Salt Lake City, in addition to the three a week now operated to the Coast via Omaha and Cheyenne. This gives the tourist a chance to enjoy the most beautiful scenery that Colorado affords, the route being through Colorado Springs, past Pike's Peak and via the Royal Gorge, Glenwood Springs and Salt Lake City. This, with the two tours a week via Cheyenne and Ogden to Sacramento, San Francisco and Los Angeles and one a week to Portland, makes five from Chicago to California, Oregon and Washington.

This personally conducted feature has expanded wonderfully in the last few years. The service has steadily improved, so that Pullman tourist sleeping cars have all the conveniences of the standard sleeper and are particularly well adapted to the use of family parties and those who desire economy in travel. With the low rates now in effect to the Coast, this branch of the service promises to be very popular indeed, and will doubtless enable thousands to visit the Coast who otherwise would have been unable to go. These thousands will include a large percentage of people who hope to find on the sunny slopes of the Pacific a place where life's hard struggle may be made easier and where a competence may be gained with a small investment in fruit raising or some similar occupation; to which class is added the invalid who finds in the far West, the dry and balmy air and sunny days that bring health and strength that the East fails to provide.

The United States cruiser Montgomery has arrived at Colon from Santa Marta, Colombia. That port is still in the possession of the government, but a small number of insurgents continue in the locality.

At the session of the Association of Hospital Superintendents at Philadelphia, John Feherenbach of the Cincinnati hospital, was elected president of the association and Cincinnati was chosen as the next place of meeting.

Coal Goes to the Bottom.

Cattlettsburg, Ky., Oct. 17.—One hundred and fifty thousand bushels of bituminous coal, a portion of the cargo of the advance guard of the coal fleet bound from Pittsburg to the south, were sunk in the Ohio river near here early yesterday as a result of a collision of the tow boat Fred Wilson with a dike, two miles above this city.

Kansas Miners Quit Work.

Parsons, Kan., Oct. 17.—Seven hundred men stopped work yesterday at the coal mines of the Southwestern Improvement company at Mineral, near here. As the strike is sympathetic, there may be further trouble. The miners struck because the company refused to pay the engineers according to the union scale.
