Here's a Proposition for You.

I have employed an expert watchmaker, with 20 years experience. It has cost me a lot of money to get him—the fact is it has cost me more money to get him than I am able to pay, but I must have a man that can do the very best of work, so will be safe when you leave your watch to be repaired, and I may retain the fine repair trade that I have built up with care. You can rest assured that I will not keep a man that is not the very best. Thanking you for your kind patronage, and asking you to still remember us, we are yours for business.

Crawford County State Bank

DENISON, IOWA.

The Best Security for Depositors. Farm Loans at Five Per Cent Interest.

This Bank is incorporated under the laws of the State of Iowa. This gives the best security to all depositors, not only to the amount of stock, but the personal property of each share-holder is held to the amount of his share for any loss to the bank. Incorporated banks are under the control of the State Auditor, who can at any time examine the business, and according to his investigation the published statements are made. Depositors in an incorporated bank have more security than the confidence imposed in the offices. They have the best security, because the capital stock can not be used at pleasure for outside speculation and investment. The Crawford County State Bank is the best incorporated banking institution in the County. A general banking business done.

Can a woman give to another woman the unswerving loyalty which an ideal friendship should exact? Will a woman be faithful to her friend not merely while she is her friend, but after? If for any reason, jealousy or envy or the poison of suspicion part the two, will each be loyal to the past, keep its secrets and respect its obligations? If ever two men who have once been friends wear out their friendship and perhaps exchange it for open enmity, they still respect the tie that has been broken. For the future, they will strike as hard as they are able, but in doing so they will not violate their old friendship, nor use the opportunity which it gives them for inflicting pain—but is this the same to a man as to a woman? These are some of the questions which Ralford Pyke asks in the article he contributes to the November Cosmopolitan on "What Women Like in Women."

GOODRICH NEWS.

A scene of much pleasure and merriment occurred at the home of L. F. Morris Thursday evening. A halloween party of about eight couples were invited to spend to evening in games, music and social conversation. About 11 o'clock one of the company gave the information "only one buggy left on the place with writing on cover, a very fine team but a little frisky," the boys seemingly to have spirited the others away. After a feast in the good things to eat that Aunt Ann has always on hand, a search began for the buggies which created no end of amusement for the boys. Much credit must be given Detective Reddy Winey for entering the gang and getting information about them and compelling them to haul his back. Buggies were seen going down the streets like automobiles, then again a couple on horse back would take hold the hills and away they went like the wind but at last the cheers came, buggies returning fast. Johnie Anderson's was drawn up to grain stacks but no machine was there so Johnie was off duty; another at the saloon and thus they were scattered, but at last all were drawn up around Uncle Lyman's porch and all were safe. The boys were good natured and went home in the wee sma' hours feeling they had spent a joyous time.
