With the leaders. Behind every fact lies a reason. When there is a multitude of shoes for women trying to be sold, and one shoe far surpasses all others in volume of sales, there is a reason for it. This one shoe is "Queen Quality." Its sales are more than double the sales of any other women's shoe. It can't be because of the price, since it costs no less. It is simply a triumph of leadership.

"Queen Quality" is recognized as the leader in style. It leads, others follow. It originates, others copy. Everywhere it sets the style. If you wear "Queen Quality" you are with the leaders in fashion.
