Chicago Exposition Will Be One-Third Larger Than Last Year.

Chicago, Nov. 28.--Everything is in readiness for the informal opening tomorrow of the third international live stock exposition at the stock yards in this city. The exposition this year will be one-third larger than last year, making it far ahead of any other exhibition in the world in point of number of entries, general interest and educational influence. Many foreign countries have recognized the importance of the exposition by naming special representatives to come as delegates, or notifying their diplomatic and industrial representatives in this country to attend and make a full report of the progress and conditions of live stock as shown in the exhibits and in the competitive events. Railroad officials and the exposition management estimate an attendance of 500,000 people from outside the city of Chicago and great efforts have been made to list and provide accommodations for this throng of visitors.

Wednesday a new \$100,000 building, provided by the Union Stock Yards company as permanent headquarters for the pure bred live stock record associations of the United States and Canada, will be dedicated by Secretary of Agriculture James Wilson and the governors of a number of agricultural states who have accepted invitations to attend.

EXPORTATION IS PROHIBITED.

Foot and Mouth Disease Exists to Alarming Extent Down East.

Washington, Nov. 28.--Secretary of Agriculture Wilson issued a sweeping order directed to the agents of railroad and transportation companies of the United States, stockmen and others, notifying them of the establishment of a quarantine on cattle, sheep and other ruminants and swine in the New England states and prohibiting the exportation of such animals from the port of Boston until further orders. Recent investigations in the department of agriculture disclose the fact that what is known as foot and mouth disease exists to an alarming extent in Connecticut, Rhode Island, Massachusetts and Vermont. The expert of the department, D. Mohler, Dr. Leonard Pearson of the University of Pennsylvania and Dr. James Law of Cornell investigated the infected districts and united in a recommendation that in order to prevent the spread of the disease a quarantine should immediately be established. Secretary Wilson said that this is the most serious case the department has had to handle for some time, but that all the resources of the department would be employed in stamping out the disease. He declared that if it should spread west of the Hudson river it would be nothing short of a national calamity.

Embargo on Cattle Threatens Curtailment of Its Foreign Commerce.

Boston, Nov. 28.--The order of the secretary of agriculture, placing an embargo on the shipment of cattle from the port of Boston, will give great assistance to the Massachusetts cattle commission in its effort to stamp out the epidemic of foot and mouth disease in this state. At the same time, the order threatens curtailment of the foreign commerce of Boston, in that it is likely temporarily to cut off the shipment to Europe of an average of 2,500 head of cattle a week.

It is with the hope of preventing further infection, especially to the western part of the state, and to stamping out of the disease where it now exists that the department of agriculture and the state authorities have joined hands. The government order was received with surprise, not only by the cattlemen of Brighton, but by the steamship agents as well, as it means a considerable loss to the four or five foreign lines carrying cattle to Europe from this port. Such drastic measures have seldom been adopted by the United States government. Several agents cabled to the home office in London for instructions.

Sold Salted Gold Mine.

New York, Nov. 28.--William H. McNutt, who says he is an electrician at the Rossmore hotel, was arrested here at the request of the Chicago police. According to the police McNutt was indicted in April last by the Cook county grand jury, together with Daniel Kelly, James Lonergan, Edward Schultz and William C. Martin, for swindling William T. Block out of \$13,000 by selling him a salted gold mine. Kelly and Schultz were tried on the charge and are now serving a four and a six year sentence respectively. Lonergan and Martin are said to be in Europe.

ROCKWELL CITY VS. DENISON.

Yesterday morning the Denison football team went to Rockwell City to play football against the town team of that place. Denison got it rubbed into them by the score of 22 to 5. Rockwell City was some what heavier than Denison and in better form and aided also by a clever referee in the first half Rockwell was enabled to run up a higher score than they probably deserved. In the second half with a different referee Denison held Rockwell down to times better.

The game began at 3 o'clock Paul kicking off for Denison to Rockwell City. After about eight minutes play Joyce was hurt in the right leg and Romans took his place at left tackle. Both sides were slow and better in defensive than offensive play. Denison played a punting game in both halves and nearly always gained ground on her punts. Purcell at full did the kicking. No sensational plays were made. At the end of the first half the referee allowed Rockwell City five downs to gain four yards for a touch down. The Denison players tried to call a halt and take the ball which was theirs by rights but no attention was paid to them and Rockwell City made the goal line finally.

With only a minute left to play the half ended with the ball in Denison's hands and on Rockwell's 35 yard line. The second half was mostly a repetition of the first half, Rockwell City having the ball nearly all the time.
