This is the most joyful Christmas season on record at the home of Harry Grammons, at Denison, the occasion being the arrival of a daughter, their first born, on Tuesday Dec. 16, and both a mother and child are reported as getting on famously. Christmas in the Kindergarten.

It is a great pity that more of the parent- who have children in the kindergarten could not have attended the closing program on Wednesday morning. The decorations of the room were lovely, a snow storm that looked like a dream snow storm together with festoons of green and gold stars made a fine setting for a Christmas tree in the center of the room. Around the tree the children gathered and sang of Jack Frost Santa Claus and his wonderful reindeer Christmas bells and also some of the sweetest of Christmas carols. Miss Bond related "Twas the Night Before Christmas" and was listened to with the most flattering interest by the little folk. Under the skillful direction of Miss Bond and Miss Stoner each child had a gift for their parents of their own work. Little gifts that money could not buy from the proud mothers and fathers to whom the work of the tiny and loving fingers is unspeakably dear. The gift of the great Froebel when he gave the kindergarten idea to little children cannot be over valued. To give to little children happy memories to be theirs through whatever life has in store for them. To make the trials from spoiled baby hood into school rules so easy; to give lessons in helpfulness love and good breeding so naturally that it seems like the air the children breathe, all this means giving poetry to mundane life. Miss Bond and Miss Stoner are to be congratulated on the secure place they have in so many adoring little hearts and on the success that will give them well merited pleasure.
