NO. 10

The Best What is, is None too Good For CHAMBERLIN, THE JEWELER. Our aim is to do the Best We Can, at the Lowest Price That the Best Can Be Sold For.

PRESS STATEHOOD BILL

Friends of Measure Determined to Force Senate Action.

MAY BLOCK OTHER LEGISLATION

Senator Quay Ready to Enforce Night Sessions to Pass Measure—Opponents of Bill Prepared to Talk It to Death.

Washington, Jan. 26.—The feature of the week in the senate will be the continuation of the contest over the statehood bill. The lines are now more closely drawn than they have ever been on this bill. They are, indeed, so taut that all onlookers realize that they are about to break, but few unprejudiced persons would undertake to say positively on which side the disaster must fall. The advocates of statehood were much encouraged by the vote of last week, and contending that it has been demonstrated that there is a majority of the senate favorable to the bill, they declare that it is preposterous to ask them to yield.

It is the intention, however, to use the appropriation bills only in case there should be an effort to hold night sessions in order to secure action on the statehood bill. Senator Quay has more than once indicated his intention of asking the senate to "sit continuously" which means that he is contemplating night sessions. The general understanding among the friends of the measure is that the prolonged session test will come early in the week, possibly about tomorrow night. Senator Quay now asserts his intention to press the bill more strenuously than in the past, and the opposition is just as pronounced in its declaration of intention to resist its passage. They say that the bill cannot pass, and some of them announce that they would rather take the responsibility for an extra session of congress than have the statehood bill become a law. Senator Cullom will make an effort whenever the opportunity offers to secure consideration of the Cuban treaty and he said that he would again move, if necessary, to have the senate go into executive session during the week for the purpose of taking up the treaty. Senator Cullom also has in charge the Panama canal treaty and expresses a desire to secure early consideration, but as several of the members of the committee on foreign relations, before which the treaty is pending, find it necessary to be out of the city during the week, it does not seem probable that the canal treaty will be reported out of committee during the week.

HOUSE HOLDS SUNDAY SESSION.

Memorial Services for Members Who Have Passed Away.

Washington, Jan. 26.—The house of representatives yesterday inaugurated the experiment of holding memorial services for deceased members upon the Sabbath. It will be followed hereafter during this session and probably will become the general practice in the house in the future. At the session yesterday tribute was paid to the late Representatives Russell (Conn.), Shepard and DeGrafenried (Tex.), each of whom died during the congressional recess. The attendance in the galleries was quite large and there was a numerous assemblage of friends of the deceased members on the floor. This week will probably witness the passage by the house of the Fowler currency bill. The house managers have arranged to bring in a special rule making the measure a continuing order until disposed of, beginning on Wednesday next. While it is anticipated that the bill will precipitate a very lively debate, its friends believe that its passage is assured. The anti-trust bill will not come up until next week.

Wants Football Made a Crime.

Sioux Falls, S. D., Jan. 26.—Among the bills introduced in the legislature is one which is designed to put a stop to the playing of football in South Dakota. The provisions of the bill are severe, and under it the standing of the football player is even worse than that of a criminal. A player makes himself liable to a fine of \$1,000 and five years' imprisonment, while the simply announcing of his intention to play makes him subject to being placed under a heavy bond.

Ryan Willing to Fight Fitz.

Hot Springs, Ark., Jan. 26.—Tommy Ryan, the champion middleweight, who arrived here yesterday, received a telegram from Jack Herman, manager of the Fort Erie Athletic club at Buffalo, asking him if he would fight Fitzsimmons there for a purse of \$25,000. Ryan replied that he would, if Fitzsimmons would train down to the middleweight limit.

MINERS TO RAISE STRIKE FUND.

They Vote to Accumulate Millions of Dollars for Defense.

Indianapolis, Jan. 26.—President Mitchell said he thought there was no doubt that the United Mine Workers would be through all their convention work Thursday and the miners would be ready for the conference with the operators Friday.

Members of the defense fund committee will report in favor of a large fund. Suggestions to the committee recommend that a fund of \$2,000,000 to \$5,000,000 be maintained. Numerous plans are suggested. The one which finds most favor with the delegates is to invest the money now in the treasury in bonds and other gilt-edged securities drawing good rates of interest, which could be realized on at once in case of necessity. It is the universal demand that a national defense fund be maintained, but the majority of the delegates are opposed to any plan which takes the money out of circulation and ties it up in banks and other depositories which pay no interest. The greater number of the delegates are in favor of creating a state or district defense fund.

The coal operators will begin to arrive in the city Wednesday for the joint conference between them and the miners, which begins Jan. 30. Secretary Wilson of the mine workers says there will be between 250 and 300 operators here. The scale commission, which consists of sixteen miners, will meet a like number of the operators.

DAWSON CITY ENTERS PORT.

Vessel Takes Eighty-six Days Between Nome and Port Townsend.

Port Townsend, Wash., Jan. 26.—The steamer Dawson City, eighty-six days from Nome, reached port yesterday under sail, after a tempestuous voyage. The entire trip was marked by a succession of accidents and exciting delays, while the fury of the elements seemed to combine to hinder her passage to her destination. Soon after starting south the boilers commenced leaking, with the result that the fresh water supply was consumed. Then fuel began to run short and the vessel was forced to resort to such canvas aboard as could be fashioned into sails. The vessel put into Port Moller for fuel and water and after remaining two weeks started again, only to run into fierce storms, which drove her from her course. Again fuel ran out, so the Dawson City headed for Dutch Harbor to refill her bunkers and tanks. At this port her sailors deserted and refused to continue the voyage. The run from Dutch Harbor to this port was made in twenty-two days. The Dawson City brought no passengers except her owner, Felix Brown of Seattle, and his wife.

OREGON RIVERS OUT OF BANKS.

Willamette Higher Than Ever Before Recorded.

Portland, Ore., Jan. 26.—The heavy rains of the past forty-eight hours have caused the snow in the Cascade and coast range mountains to melt rapidly, and all the streams flowing into the Willamette river have become torrents. Advices from the upper river show that the Willamette is higher than ever before recorded, and much damage has been done to farms along the river bottoms. Many booms of logs have broken away and several million feet of sawlogs set adrift. The river at this city rose three feet during the night and stands fifteen feet above low water. The weather bureau predicts a further rise on account of the large volume of water in the upper river, though no serious damage has resulted along the water front. No through trains arrived over the Southern Pacific on account of a washout between Harrisburg and Junction City.

Smallpox Hospital Burns.

Biddeford, Me., Jan. 26.—By the burning of the smallpox hospital yesterday, thirty-six men and women patients were forced to escape in their night clothes. The mercury was several degrees below zero and all suffered terribly from exposure. One man is expected to die. When the fire was discovered some of the patients seized mattresses and dragged them out on the snow, out of danger from the fire and huddled together upon them. Notwithstanding the dread of the disease, the firemen and police went at the building with a will, but it was destroyed. The firemen and policemen gave up their outer garments to clothe the patients, who were cared for in houses offered by the owners as temporary hospitals.

Funston Will Attend.

Emporia, Kan., Jan. 26.—General Funston, General Wood and Chester I. Long will be guests of the Kansas Day club at its Topeka banquet on Thursday.

WOLCOTT YIELDS TO TELLER

Advises People to Accept Situation as It Stands.

SCORES HIS PARTY ENEMIES.

Complains of Republican Treachery, but Urges Close of Senatorial Fight. Governor Peabody Congratulates Teller on His Election.

Denver, Jan. 26.—Henry M. Teller, who was elected for his sixth term in the United States senate Saturday at a joint executive session, in which only Democrats participated, left the city for his country place at Grand Junction. Governor Peabody, who went to Canyon City to spend Sunday at home, was a passenger on the same train. The two distinguished citizens met on the train, and Governor Peabody extended congratulations to the senator.

"My election, I feel sure, was perfectly legal and regular," said Senator Teller, in conversation with friends, "for I succeeded in getting the majority vote of both houses. I am entitled to a certificate from the governor and shall expect it, but if I fail to secure gubernatorial credentials I shall be able to take my case before the senate nevertheless."

When asked if he would sign a certificate for election of Senator Teller, Governor Peabody replied: "I will cross that bridge when I come to it." It is understood, however, that the governor will be in no haste to act in the matter, but will allow the fullest time for the determination of all the issues before he acts.

The climax in the senatorial fight came last night, when Senator Wolcott, the candidate of the so-called "stalwart" wing of the Republican party, announced his practical withdrawal from any further contest, and urged the people of Colorado to accept the situation as it stands by the election of Senator Teller to succeed himself. The announcement was made in a signed statement, in which Mr. Wolcott charges certain Republican leaders and the anti-Wolcott forces in the Republican ranks with treachery, deliberate and continuous, although he disposes of other of the anti-Wolcott crowd by characterizing them as "dupes" of the main conspirators. He refers to the refusal of the anti-Wolcott members of the house to unseat the Democrat members from Arapahoe county and calls it "a crime against the Republican party and against justice."

D. B. Fairley, chairman of the Republican state committee, whose resignation has been demanded by a vote of a majority of the committee, on account of his opposition to the candidacy of E. O. Wolcott for the senatorship, has given out a statement declaring that the Republicans will not recognize Teller's election for the reason that the proper officers did not preside over the joint session.

Anti-Saloon Crusade in Illinois.

Chicago, Jan. 26.—From the pulpits in every city and town throughout the state yesterday ministers advocated the bill recently introduced in the Illinois legislature by Senator Parker of Hyde Park, providing for a law giving cities, counties and smaller communities the right to decide by ballot whether the saloons shall exist. This great expression of opinion and endorsement was the result of a general request for sermons on this topic from the Illinois Anti-Saloon league, and in Chicago alone nearly all the ministers asked that the members of their congregations exert their influence for the passage of the measure.

National Liberal Party Elects.

Lexington, Ky., Jan. 26.—The first annual congress of the National Liberal party closed last night. St. Louis was selected as the next place of meeting during the exposition. Following are the new officers: President, Dr. J. N. Wilson, Cincinnati; secretary, Morris Sachs, Cincinnati; treasurer, Morgan Warmley, Cleveland. A platform adopted deplores war, opposes government protection to missionaries, condemns the liquor traffic, advocates equal suffrage and asks investigation by the government that may lead to rendering strikes impossible.

Pretender Again Advancing on Fez.

Tangier, Jan. 26.—News from Fez, dated Jan. 21, states that the pretender, Bu Hamaha, was then advancing at the head of large forces and had arrived at a point twenty-five miles from Fez. A decisive battle was expected and should the sultan's main army be defeated it was thought that the city of Fez would inevitably fall into the hands of Bu Hamaha.

MAN HUNT IN MISSOURI.

Suspected Bank Robbers Fire on Officers, Kill One Man and Escape.

Union, Mo., Jan. 26.—The house twelve miles from here where Saturday occurred the fight between men suspected of being the robbers of the bank of Union and officers, in which Detective Schumacher of St. Louis was killed, was searched and a sack containing \$800 was found in the cistern. As a result of the fight, Frank Rudolph, his wife, their daughter, Esther, and George Hames, a relative, who were occupants of the home, were arrested. Rudolph is the step-father of William Anderson, who escaped from the house after the fight and is suspected of complicity in the robbery. The prisoners have been brought here. Anderson and a companion named Lewis are wanted specifically on the charge of being the bank robbers. Lewis was wounded in the fight Saturday. They went to a farmer named Armstead and demanded two horses. He refused to comply, and laying down \$200 they forcibly took the horses and rode away. It is believed the robbers will not surrender if surrounded, but will fight to the death. Posses are scouring the country and are being augmented by hundreds of armed men and boys. Anderson, who is twenty-one years old, is described as a typical backwoodsman, cool, deliberate and fearless, and if he is discovered a desperate fight will result.

WASHOUT CAUSES A WRECK.

Engineer and Fireman Killed and Several Passengers Injured.

Portland, Ore., Jan. 26.—The Atlantic express on the Oregon Railroad and Navigation line was wrecked by a washout yesterday at 6 o'clock, two miles east of Bingham Springs, in the Blue mountains. Engineer Patty of La Grande and Fireman Milligan of La Grande were killed and several passengers were slightly injured. The heavy rains of the past forty-eight hours have melted the snow in the mountains and all the rivers and streams are rushing torrents. At a point two miles east of Bingham Springs 150 feet of track was washed out and the train ran into the washout in the darkness. The engine and tender turned completely over and the engineer and fireman were carried down with it.

William Maxwell, a traveling man from Portland, was badly crushed about the breast. He was taken to the hospital at Pendleton and it is stated has a chance of recovery. None of the other passengers was injured.

MAY HAVE BEEN MURDERED.

Man Connected With Muscatine Dynamite Plot Is Dead.

Muscatine, Ia., Jan. 26.—Martin Woods, recently released from the penitentiary, where he served ten years as an accessory to the blowing up of the homes of John Mahin, E. M. Kessinger and N. Rosenberger of this city in 1893, was found dead in bed Saturday. There are strong indications of foul play. It is said that Woods threatened to tell who his accomplices were in the dynamite outrage. The blowing up was the result of the active participation of the parties in a prohibition movement at that time.

Both Claim Sole Guilt.

St. Louis, Jan. 26.—Martin Ferguson, former treasurer of Butler county, Missouri, and his son, William, both of whom were convicted of counterfeiting, were arraigned for sentence. Each tried to assume the entire responsibility and shield the other. The elder Ferguson was fined \$1 and sentenced to five years. The son was given a lecture and released on the promise that he would help support his mother and sister.

Powder River Receding.

Baker City, Ore., Jan. 26.—Powder river has fallen considerably during the past few hours and all danger to city property has passed. The valley is still full of water, the ground being frozen, keeping the floods on the surface. All mountain streams east and west of here are out of their banks, and all trains badly delayed. Two or three railroad bridges have been washed out, but no other serious damage to property has been reported.

Guilty of Assault Plot.

Chicago, Jan. 26.—Four members of the executive committee of the brass workers' union were found guilty of conspiracy to assault nonunion men and were fined sums aggregating \$4,000. The verdict was as follows: Jacob E. Johnson, fined \$1,500; William H. Mangan, fined \$1,250; Gus Hoppe, fined \$750; Thomas Christy, fined \$750.

All Quiet at Maracaibo.

Maracaibo, Jan. 26.—All is quiet here this week. The Panther is still blockading outside the bar.

TROUBLE IS ABOUT OVER

Agreement With Allies May Be Reached This Week.

BLOCKADE WILL SOON BE RAISED

Minister Bowen Confers With Diplomats—Venezuela Claims to Have Proof Attack on San Carlos Was Planned in Berlin.

Washington, Jan. 26.—A long conference between Minister Bowen and Sir Michael Herbert, the British ambassador, beginning at noon, followed by the further conferences between Sir Michael, Signor Mayor Des Planches, the Italian ambassador, and Count Quadt, the German charge d' affaires, indicated diplomatic activity in Washington yesterday over the Venezuelan situation. Statements by them that the situation warrants hope of early relief is significant of what has been accomplished. By this time the London, Berlin and Rome foreign offices are in possession of Mr. Bowen's third proposition, stating the nature of the guarantee he is prepared to offer for Venezuela if his initial request is complied with and the blockade raised at once.

The important fact was developed that the triple alliance against Venezuela was far more impressive than was supposed at first. The agreement between Great Britain, Germany and Italy involved not only a joint initiative action for the collection of their claims, but each of the three powers pledged itself to lift the blockade simultaneously. The ironclad nature of the alliance already has been communicated to the state department by Mr. White and it is this fact which was responsible for the grave apprehensions heretofore felt regarding the outcome of the dispute. The reply of the powers therefore necessarily will be joint.

Says Attack Was Planned in Berlin.

Caracas, Jan. 26.—The Associated Press correspondent has been making inquiries with a view of ascertaining whether the Panther or Fort San Carlos fired the first shot. The foreign minister said: "The Panther on Jan. 17 attacked the fort first without provocation. The gunboat approached the fort and fired on it. We can guarantee that the attack was premeditated and planned in Berlin. The proof of this assertion is a letter we received on the morning of Jan. 16, notifying us that San Carlos would be attacked between Jan. 17 and Jan. 19, that is to say before the arrival of United States Minister Bowen at Washington."

Looses Reason After Trial.

Aledo, Ill., Jan. 26.—The long strain of the trial of Tona Dunlap, who was charged with the murder of Allie Dool, has caused her mother to go insane. Ever since Miss Dool's death Mrs. Dunlap had been constantly working to save her daughter from being convicted of the crime. She was in constant attendance at the trial, and as the legal proceeding dragged on into weeks the effect on Mrs. Dunlap was plainly noticeable. Even the acquittal of her daughter did not save her reason.

Lawrence Bash Is Dead.

Columbia, Mo., Jan. 26.—Lawrence Bash, whose death in Boone county has just been announced, lent John W. Mackey \$10,000 with which he bought and developed the Comstock lode. Bash was then a prosperous liveryman of Virginia, Nev., and a warm friend of Mackey. Their friendship continued until Mackey's death. Bash returned to Missouri many years ago. He left a large estate.

Railroad Man Tires of Life.

Huntington, Ind., Jan. 26.—Robert E. Kinaird, at one time general passenger and ticket agent of the Fort Wayne, Cincinnati and Louisville railroad, with headquarters at Fort Wayne, committed suicide yesterday by taking morphine. Five years ago he was general auditor of the Santa Fe railroad at Wichita, Kan. No cause is known for the act.

Four Deaths From Plague.

Mexico City, Jan. 26.—The charity commission at Mazatlan has received upward of \$130,000 for use in combating the plague. Money is still pouring in from all parts of the country. The official bulletin from Mazatlan reports four deaths and four new cases. The total number of cases in the hospital was forty-four, five of which were serious.

Blockade to Be Raised.

Rome, Jan. 26.—The Patria asserts that the Venezuelan blockade will be raised today.

APPROVE ALASKAN TREATY.

British Press Sees Renewed Proof of American Friendship.

London, Jan. 26.—The signing of the Anglo-American commission to settle the Alaskan boundary dispute at Washington Saturday has given great satisfaction to the English press on the ground that it gives at a critical moment in the Venezuelan trouble an undoubted proof of the uninterrupted friendliness existing between Great Britain and the United States. This is the point which is elaborated in all the editorials on the subject almost to the exclusion of discussion of the intrinsic merits of the arrangement concluded. Little doubt is entertained here that the United States senate will accept the treaty and that the commission will ultimately meet in London, but regret is expressed that no provision is made for the appointment of an umpire, because in the event of the commission being equally divided in opinion, it is said the controversy will be very little nearer a settlement.

Toronto, Jan. 26.—A dispatch from Washington regarding the signing of a treaty to refer the Canada-Alaska boundary dispute to arbitration was not unexpected. The question is asked here, "how far does the treaty go?" If the entire boundary dispute without the Dyea and Skagway reservation is to be referred to the arbitration commission, then Canada does not stand to be in any worse condition than she is today. If the ownership of Dyea and Skagway has been conceded to the United States, Canada is placed in a dangerous position. It is believed if the United States wins over the British representative, then good bye to Canadian contentions.

Revolt in China Spreading.

Victoria, B. C., Jan. 26.—The steamers Athenian and Tremont arrived yesterday from the Orient, having both sailed from Yokohama and arrived within an hour of each other. The steamers bring further news of the revolution in Kansu. One respondent telegraphs to the papers from La Shekow that unless Tung Fuh Si presses the powers will themselves face to face with revolt than two years ago. Arles are already beginning the threatened district.

Vice President Velasco Ba

La Paz, Bolivia, Jan. 26.—Yesterday the first vice president Colonel Velasco, was banished an executive decree, for an 11 period. A police patrol followed him to the Peruvian frontier. Son for this action was that Vice President Velasco, being a leader in opposition, could not assume the presidency without creating political disturbances. The second vice president, Dr. Capriles, will assume the presidency when President Pando goes to Acre.

Town of Armagh Fire-Swept.

Armagh, Ireland, Jan. 26.—A great fire broke out here yesterday and spread so rapidly that the local fire brigade was unable to cope with it and assistance had to be sent from Belfast, thirty-five miles distant. Ten of the largest warehouses and shops in the center of the town were destroyed, the damage being estimated at \$300,000. The trade of the town is paralyzed by this destruction.

Stromboli Volcano Again Active.

Rome, Jan. 26.—After a brief spell of inactivity the volcano Stromboli is again in eruption. Great quantities of lava and stones are being thrown up and to an immense distance from the crater. The cone of the volcano is capped with a thick cloud of smoke. The eruption affords a magnificent spectacle at night, the flames rising from the crater, illuminating the sky.

Protest Against Death Sentence.

New York, Jan. 26.—At a meeting of delegates of the United Irish-American societies of New York, presided over by Daniel F. Colahan, last night, resolutions were adopted denouncing the trial and death sentence of Colonel Arthur Lynch as a travesty on justice.

Trunks Valises

Traveller's Supplies of all Kinds.

Haugh & Brummer

Reliable Clothiers,
DENISON, IOWA.
