The effect of this acceptance will be to extend the life of the option held by the government beyond March 4 next and until the treaty now before the senate has been ratified by both countries.

### Teller Expects to Depew's Remarks.

Washington, Feb. 18.—The senate yesterday agreed to the conference report on the army appropriation bill. ### The Old Old Story.

Mr. Bryan does not like any of the anti trust bills which the republicans have before Congress. This is just what the republicans supposed would be the case. The democrats will find fault with any antitrust act which the republicans may place on the statute book. Criticism and obstruction are easy. This is the extent of democratic influence in Congress or in the country. The constructive work of the country will have to be done by republicans. As they, however, have been doing this sort of work during nearly all the time for over forty years past they will be able to meet the present emergency.—St. Louis Globe—Democrat.
