The Ernest Gamble Recital Co. will give the next number of the lecture course, Friday, Feb. 27th. This excellent organization is composed of Ernest Gamble, Basso, Miss Ednah Dow, Violinist and Frederick Morley, pianist, each of whom have studied under the best teachers of today. Many good things are said of Mr. Gamble's singing, some are that he has a finely modulated voice, rich powerful and musical, together with a cultured style and intonation which is felicitously true.

Denison music lovers are familiar with Miss Dows excellent work as a violinist as she was an instructor on this instrument in the Denison Normal college several years ago and at that time demonstrated her ability to handle the most difficult of instruments.

Mr. Frederick Morley, the pianist with his company is a pupil of the great Leschetizki who in turn taught Paderewski, Hambourg and Gabrielowitz and to this fortunate circumstance perhaps is due much of the skill so apparent in Mr. Morley's playing. Reserve seats Wednesday.

Dr. Carr Moves to Denison.
Dr. Carr who came to Dow City ten years ago, without money enough to pay almonths board at the hotel, started to practice his chosen profession in our midst and has been so successful that to-day he is worth many thousand of dollars in money, town property and farms. His great success from the very start is attributed to the fact that he went whenever and wherever he was called whether the person was rich or poor and has done very much hard driving which together with some accidents which have happened to him have caused him to desire to locate where he would not have so much out door work, notwithstanding he is able to attend that class of customers when necessary. He leaves many friends in Dow City and vicinity who will regret his removal, but will be glad to know that he will not be so far away but that they can call him if thought necessary. His location in Denison will be in the Gulch block on Broadway where his many friends can call on him while in Denison. Judging the future by the past we have no doubt but that the doctor will prosper, and it is our wish that he might succeed in the future as in the past.

Father Farrelly at the College.
Rev. Father Farrelly gave the students an address last week. His subject was "Pompeii and Rome." He had some views of the discoveries made in excavating the city of Pompeii and gave an account of many interesting things concerning the buried city. He gave a vivid description of the immensity and grandeur of St. Peter's church at Rome. Few have any conception of what a structure the work of 400 years has produced. All will be pleased to hear Father Farrelly again.
