To California Sensibly.

Two-thirds of the people who go to California make the trip in a tourist sleeping car. It is the sensible way to go—almost as comfortable as a "palace" car, and very much less expensive.

Rock Island Tourist Cars are operated over both the "Scenic" and "Southern" routes—daily via Kansas City and El Paso; twice a week via Colorado Springs and Salt Lake City.

If you expect to go to California in the near future, and want to make the trip as inexpensively as possible, you will be interested in the extraordinarily low rates which the Rock Island offers February 15th to April 30th.

CURES WITH CALCIUM SALTS.

Dr. Loeb Discovers New Remedy for Nervous Diseases.

Chicago, Feb. 23.—Dr. Joseph E. Loeb has discovered that diseases such as St. Vitus' dance, locomotor ataxia and sleeplessness can be cured by administering calcium salts, that is, such salts as are found in well water and many foods. Announcement of this discovery in scientific research by the former head of the department of physiology at the university of Chicago has just been made. Simply stated, the conclusion is that the presence of calcium salts in the muscles is what prevents their twitching; that practically all nervous diseases are caused by the absence of the calcium and that, therefore, to restore normal conditions and effect a cure is to dose with calcium salts.

VERDICT IS NOT GUILTY.

Woman Accused of Murdering Her Husband is Acquitted by Jury. Centerville, Ia., Feb. 23.—The jury in the Krebs murder case returned a verdict exonerating the defendant, Mrs. Krebs, who was charged with shooting her husband in cold blood because he awakened her by throwing water upon her.

RESERVOIRS SWAMP TOWN.

Dams Break in Connecticut and Cause Damage of \$100,000.

Derby, Conn., Feb. 23.—The breaking of three reservoirs in the town of Shelton early yesterday caused \$100,000 damage and there were several escapes from death. The torrent tore a great gully 110 feet long and 30 feet wide through Howe avenue. Logs and trees and huge cakes of ice were carried along and crashed into several buildings. The house of Walter Nichols was struck by the flood. Nichols was away and his wife was awakened by the ice crashing against the door. A few moments later the water commenced to flow into the bedrooms where six children were sleeping. Mrs. Nichols hurried to the door and held it while her children escaped to an upper floor. A few moments later she escaped just before the water and ice forced in the door and flooded the rooms. The family remained prisoners in the upper part of the house until the water receded.

He had been lying in that condition for several days, his mouth partly filled with coagulated blood. She took him away and he died some time later.

Felix Loxom, who was an inmate at the time, said he saw Joe Dunlap, an attendant, beat Bussell terribly.

The guests and help were notified and all left the building in safety, many taking their personal effects with them. The cause of the fire is unknown. The loss will amount to \$60,000, with \$50,000 insurance. There were about fifty guests in the house.

The man is dead and the woman is in a critical condition. The case is thought by the police to be one of attempted murder and suicide, as electric light was used for illuminating purposes and there was no occasion for turning on the gas.
