**NEW N. P. ROUTE.**

Party of Surveyors in LaMoure County Plan Changes.

Fargo, N. D., Feb. 27.—The presence of a party of Northern Pacific surveyors in LaMoure county is said to be for the purpose of selecting a new route from Edgeley to Dawson or Steele. The minor branch, it is said, will be extended to Edgeley and the fast mail and passenger trains, as well as the through freights, will be run to the coast via Wahpeton, Edgeley and Steele instead of via Fargo, Jamestown and Valley City.

It is claimed that the new route will be thirty miles shorter and make an hour's difference in the schedule of the fast train, and will also cut off the heavy pulls on the hills at Valley City and Jamestown.—St. Paul Daily News, Feb. 27, 1903.

**N. P. EXTENSION.**

The Northern Pacific has two surveying crews in the field, one south of Windsor and the other at LaMoure. In the latter town the lines have been run through door yards, and the surveying going on has set people all to guessing. The men are sleeping in tents and say they are more comfortable than in some farmer's houses. There are all sorts of rumors as to the object of the rush of work going on and many think that it means the building of another Northern Pacific branch across the southern part of Stutsman county this season. As far as known no Milwaukee surveyors have been in the field and all in this county this winter, although farmers have reported. The preliminary surveying work is being done, as far as known, by the Northern Pacific surveyors. The rumors point to an extension north or northwest from Edgeley by the N. P.—Jamestown Alert. (Kulm, Messenger, N. D., Feb. 19 '1903)

**GRADE STAKES SET.**

Grade Stakes Set for the New Edgeley Extension of the Northern Pacific.

Dawson, N. D., March 9.—Surveyors have just completed setting the grade stakes for the Edgeley extension of the Northern Pacific railroad, and assurances have been given that the grade will be completed and ironed in time to move the season's crop. In addition to the building of this branch the company will build an additional coaling dock of double the capacity of the one at present, which will necessitate the moving of the depot and elevator. This in addition to the extension of side tracks that are contemplated and will be made necessary by the completion of the extension, will give employment to a large force of men during the coming summer.—Bismark (N. D.) Tribune, March 13, 1903.

The Eastern Missouri Valley Slope Lands in South Central NORTH DAKOTA have caused for the past twelve months considerable activity among different railroads in the Northwest. The Milwaukee, Northern Pacific and Soo Lines all recognize the natural resources of this country, and each road is after it's share of the business. The N. P. has been working on a feeder line, which is to be completed this season, from McKenzie to Linton, county seat of Emmons county. The Milwaukee road is pushing up from Enreka, S. D., to Linton N. D. This road is now running trains as far as Strasburg, N. D., ten miles southeast of Linton. The Soo Line on the 9th of August last, had just completed its extension through Logan, Emmons and Barleigh counties, and ran its first train into Bismarck, the capital of the state.

In addition to the new lines referred to above, the Northern Pacific has been at work during the past winter to tap other territory for its passenger and freight business. This new road is to extend from Edgeley, LaMoure county, through Logan, Stutsman and Kidder county territory, to Steele, county seat of Kidder. This extension will bring a lot of new settlers and start a rapid development in this part of North Dakota.

**LAST YEAR'S CROP.**—Wheat, 30 bushels; Oats 90 bushels; Flax 15 to 20 bushels. Land raising these crops will bring \$15.00 to \$20.00 per acre in a very short time.

Our lands adjacent to the farms producing these crops can be bought NOW (not next year or next season) at from \$6.00 to \$12.00 per acre. A limited number of good homesteads adjoining our land, and we locate purchaser of 160 acres FREE. Fuel question solved—Coal \$1.00 a load at the mines. Our lands are selling fast. You can't afford to wait.

Just two years ago, when we entered South Central North Dakota, we predicted that the railroads would soon be competing for the business from this territory, and that lands in this part of the state would soon double in value. Our predictions have been more than fulfilled, and those who have bought land in this territory have made money.

The chances for a more rapid development and permanent increasing values were never better than TODAY. The future will furnish no better time to buy. With the actual settlers coming in by the hundreds and with the three railroads networking the territory, it is only a matter of a short time until you can not get any of this land short of \$25.00 to \$30.00 per acre.

Think of it! Land that will raise practically the same crops and as much to the acre as \$75.00 to \$100.00 land, and selling at from \$6.00 to \$12.00 per acre on easy terms.

At the Baptist church Sunday morning March 22 the Pastor will preach the second of a series of sermons from John 17. The Pastor will speak at the evening service also.

The B. Y. P. U. will be led by Mrs. Harper, the subject for consideration being "Christ's teaching about judging others," Matt. 7: 1-5.

The Junior Baptist Union meets every Sunday afternoon at 3:30. The little folks take a special interest in this department of the work.

The adjustments recently made in the heating apparatus will help very much in giving those attending the services a warmer reception than they have received for some time. Come and get warmed up.

The material and spiritual growth of the church during the past few months are causes for encouragement to the membership.
