LOCKOUT IN COTTON MILLS

Textile Workers Prepare for Long Siege at Lowell.

ALL FLOCK TO UNION BANNER.

Shut-Down Was Caused by Ultimatum of Operators, Who Declared They Would Go Out if Increase of 10 Per Cent Was Not Granted.

Lowell Mass., March 30.—With a long mill holiday ahead, the day was a busy one for union labor in this city. Interest centered in the textile council, which for hours was in session at labor headquarters working out plans for controlling the army of textile operatives enlisted under its banner for a 10 per cent increase of wages. Labor men declare that the shutdown has done more to strengthen the union cause than any other incident. Hundreds of new members were admitted to the unions, urged on probably by the prospect of strike benefits. In this connection President Conroy of the textile council said that all operatives who have joined the issue would be cared for. While the shutdown went into effect Saturday, there were many people at work today, these being chiefly the finishing room hands, the machinists and overseers, for the mill agents intend to put property in their charge in good condition for a long period of idleness, to make necessary repairs and to prepare finished products for shipment.

After the textile meeting President Conroy stated that plans were perfected for a "long siege," indicating that he believed the shutdown would not be one of a few weeks. He also said that he had been asked to furnish thirty or forty weavers for a mill outside the state and he would send married weavers there. The use of labor halls has been given to the textile council without cost and these places will be fitted up as reading rooms.

New York, March 30.—According to the officers of the International Association of Bridge and Structural Iron Workers there is a possibility that the strike of the structural iron workers against the American Bridge company may eventually throw 200,000 persons out of employment throughout the country. President Frank Buchanan and Secretary J. W. Johnson of the association attended the meeting of the Central Federated union and talked about the strike. "We will fight until we win," President Buchanan said. "We have the work of the company tied up as far as Canada is concerned and word has come from California that the unions there have fallen in line."

Student Ends His Life.

New York, March 30.—Herman Bowman Esher, twenty-five years old, of Chicago, said to be a student at Yale university, killed himself by putting a bullet through his head in his room at the Hotel Manhattan in this city. Before leaving the place they smashed a number of bottles and glasses. At Chad Thomas' place, nearby, they smashed a large front window when refused admittance. They were not arrested.

Clew in Waterbury Murder Case.

Waterbury, Conn., March 30.—The Republican prints some new details in connection with the hunt for the murderers of Policeman Paul Mendelsohn, who was shot while guarding a trolley car on March 8. Certain of those suspected have left the city, but others are still here.

THE REAL ESTATE REVIEW.

DENISON, IOWA, 1903.

Published in the Interest of Investors and Homeseekers.

ADVICE TO PROPERTY SEEKERS.

We know there are many people seeking properties of the character of those described below. They merit your investigation. There are special features in connection with each which make them peculiarly desirable to certain people—for certain purposes. We might make some big statements concerning these features—but that isn't our style. We are aiming to be conservative. People seem to know this. We want the statements made in our advertisements to sink in. In our opinion the only way to obtain that result is to make conservative statements. We do not want to daily throw a load of brick (or a ton of coal) at the readers of our advertisements, in order to impress them with our statements. That would be laborious. Our statements do not have to be so re-inforced. Recognizing these facts will you, if interested, kindly and quietly confer with us concerning these properties, or any other class or kind that you may be seeking. The result will be to your advantage whether you buy of us or not. If you do, it will be to our mutual advantage. We will take the chances.

EXCURSIONS.

We are constantly arranging and conducting excursions to various states; Would you like to be one of a party to visit these lands? Let us know and we will send you complete information, rates, dates, etc.
