HAPPENINGS AT VAIL

[From the Observer.]

Mrs. Allie J. Robinson is here from Boone visiting her sons northwest of Vail and the doctor in Denison.

Thos. Ryan, Sr. recently received a letter from his son Tom, who is a first-class fireman in Uncle Sam's navy. He has good pay, works four hours and is off twelve, and seems to enjoy the work. He is now located at Shaoghai, China, on the cruiser Monitor.

Miss Julia Sherwood, who has been at the E. O. Thiem home in Denison the past two weeks, returned Saturday. We are pleased to state that Mrs. Thiem is some better.

A NOTABLE STRUCTURE.

The annual Engineering number of the RAILWAY AGE, issued March 20, contains a very interesting and instructive account of the construction of the new Rock Island passenger depot in Chicago.

In many respects the building is one of the most remarkable structures of recent years and the rapidity with which it has been erected is graphically shown, in connection with the article, by a series of photographs taken at intervals from 10 to 30 days.

In the photographs, the building is seen rising like a flourishing plant—one story, then three, four, seven, eleven, and finally the top cornice.

The building is 12 stories high and has a frontage on Van Buren street of 215 feet. The construction directly pertaining to the station extends south from Van Buren street 1,433 feet. The train shed is 580 feet long and 215 feet in width. The roof is supported by 19 steel trusses. The center is 85 feet above the track level. The glass area in roof, sides and ends exceeds 48,000 square feet.

Some interesting facts are: The amount of structural steel used in the depot is greater than in any other building in Chicago, being 14,200 tons. More than 200,000 field rivets were used.

A total of 2,380 piles were used in the foundation.

The track enters the station at an elevation of 15 feet above the sidewalk.

There will be 6,800 electric lights in the main building and 108 arc lamps in the train shed.

There are 11 tracks; 1,500 trains a day can be moved in and out of the station.

The modern and economical methods used in construction are illustrated by the fact that one of the first acts of the contractors was to set up in the old train shed a Gates stone crusher, and as fast as the stones were taken from the walls of the old building it was put through the crusher to be used in foundations for the new building.

An indication of the difference in size of the two buildings is given by the fact that the stone from the old building was not sufficient for the foundations of the new, and considerable additional stone had to be purchased.

Trains ceased running into the old depot December 29, 1901, and it is expected the new depot will be occupied May 1. This gives 16 months as the time occupied in demolishing the old building, putting in new foundation and erecting and finishing the new building.

The total area of depot, train shed and power house is 196,401 square feet, or a little over 4 1/2 acres.

The new building is on the site of the old station and is the only passenger depot in Chicago located on the elevated loop, over which trains of all elevated lines pass.

The first and second floors are devoted to waiting rooms, ticket office, etc., and the floors above to general offices of the railroads using the depot.

The Rock Island is to be congratulated on the beauty and convenience of its new Chicago terminal.

Strikes and Spares.

Thursday evening Kelly walked away with Wright in the second and third games of their series. Wright won the first one by a small margin.

The last two games were not as interesting as the first was and some poor bowling was done. The score:

Examination for Appointment of Rural Letter Carriers

The Postmaster, Denison, Iowa Sir:

After an investigation of the feasibility of establishing the proposed new Rural Free Delivery Route from your office, I will hold an Examination for the appointment of a Carrier and the establishment of an eligible register for filing future vacancies in the service on the proposed route.

This Examination will begin Promptly at the hour of FOUR o'clock p. m. TUESDAY, APRIL 7th 1903.

You will please post this notice in the most public place in your office, personally notify all applicants who have filed their names with you and give it wide publicity so that all who wish to be examined may be present.

No applicants can be admitted to the Examination AFTER the hour stated above.

Respectfully, L. A. THOMPSON Special Agent and Examiner, Rural Free-Delivery Service.

Applicants must provide themselves with Pen, Ink and Blotter.

Mrs. Forrester has recovered from her recent illness enough to be about her work again at Conner and Lally's office.

The Denison Drug Co. has a new man on its force. He looks a first class painter. You cannot help noticing him as you pass the store.

Drinking fountains on Main street and Broadway are among the most recent additions made by the city for the public comfort.

The various committees on the reception of President Roosevelt should get to work. The time will be here before we realize it and there is very much to be done.

The Germania Verein held a meet- ing Wednesday night and arranged to give a dance in May as well as the Easter Ball which has already been announced.

Senator W. B. Allison has given utterance to a tariff plank upon which all the republicans of Iowa ought to be able to stand. Further quarrell seems to us to be worse than useless and unnecessary.

The P. E. O. party given by Mrs. Boynton and Miss King was very enjoyable. The P. E. O. colors are yellow and white, and their color scheme was carried out in the serving of the refreshments, which consisted of two courses. Miss Sophie Balle was the only guest present who was not a member of the P. E. O. The afternoon was spent most delightfully.

The Kiron Sentinel says in relation to the illegal action of the board, "The REVIEW says that they did and the Bulletin says that they did not." The Sentinel editor should read his exchanges more carefully. The truth is that the REVIEW says they did and the Bulletin is forced to acknowledge it. This being the case the Sentinel might afford to have an opinion in the matter.

Quzke Changes Channel of River, KallsPELL, Mont., April 3.—The residents of Helena Falls, five miles north of KallsPELL, were terrified last night by an earthquake. At a point on White Fish river, where the disturbance occurred, over five acres of bluff land was carried a distance of 600 feet and deposited in the channel of the river. The dam is over 300 feet long and no trace of the former channel can be seen. The water is backing up and flooding bottom lands. The shock caused houses to shake and dishes to rattle and fall from the tables and shelves.

Sultan is Keeping Faith. Paris, April 3.—The French foreign office has been officially advised that the sultan of Turkey has ordered a division of troops to the scene of the recent outbreaks of Albanians. The officials here consider that the Albanian opposition to the reforms creates a serious complication and they accept the sultan's action in dispatching large reinforcements to Albania as evidence of the Turkish government's determination to carry out the reforms projected.

FEN DOLLARS COST OF LIFE.

Quarrel Over Disputed Account Results in Tragedy at Holbrook. Arapahoe, Neb., April 3.—The sum of \$10 is responsible for the death of one man and for the fact that his murderer is now locked up in the county jail.

A dispute at Holbrook over the services of a horse owned by Daniel M. Logan resulted in his shooting Charles Christinon.

Christinon denied the owing of \$10 to Logan and started to leave in order to avoid any further dispute, when Logan, who was under the influence of liquor, applied a base name to him, causing him to turn back. Logan then drew a revolver and shot at him three times, the first shot passing through his stomach and the other two near his heart, either of which would have proved fatal. Christinon lived but a few minutes.

Before being placed under arrest Logan made an attempt at suicide by taking a large quantity of morphine, but by prompt medical action it was overcome.

SENATOR HITS CONGRESSMAN. Clarke and Brundige Engage in Fight on Little Rock Street. Little Rock, Ark., April 3.—A fight took place here in front of the Capitol hotel, on one of the most prominent streets of the city, between United States Senator James P. Clarke and Congressman S. Brundige. The difficulty occurred over a statement given to a reporter by Brundige in an interview several weeks ago. Senator Clarke struck Brundige several blows on the head, which were promptly returned by Brundige. There were a good many members of the legislature in front of the hotel at the time and they interfered before any serious injury was done to either combatant. Brundige went to his room, where his bloody clothing was changed. Brundige said Clarke had insulted him and that he (Brundige) practically had been struck by a hard object in the altercation which ensued. No further trouble is expected.

GRAIN MEN TALK ABOUT CORN. Increase in Yield Means More Business for the Dealers. Des Moines, April 3.—The annual state meeting of the Iowa Association of Grain Dealers is in session here with about 150 present. Prof. Holden's talk on corn took up the greater part of the time. The great effort of the association this year is to stir up interest in the subject of increasing the yield of corn. "If we can increase the yield five bushels an acre it will mean 25 per cent more business for every grain dealer in the state," said Secretary Wells.

Hogs Mutilate Dead Man. Randolph, Neb., April 3.—News of a horrible death was reported here from McLean. Abram Sinclair, aged sixty, dropped dead of heart disease in a hog lot while attending to the morning chores on the farm of his son. Although it was only about half an hour until his body was found, yet the swine had time to mutilate the dead man beyond recognition. The nose was entirely gone and the flesh was torn from the face and hands by the hogs before they could be beaten the ravenous beasts before they could be beaten off.

Big Crevasse is Closed. New Orleans, April 3.—With the successful joining of ends of the crib work leading from either side of the broken Hymelia levee, the critical stage is considered to have passed in the attempt to close the crevasse, now 700 feet in width. Generally, the river conditions are considered to be improved in Louisiana. Every embankment in the state above New Orleans is holding, except those at Bogere and Angola, where the damage done is local. It is felt that the maximum flood is at last in sight.

Officer Kills Young Desperado. Sedan, Kan., April 3.—Alonzo Hamon, aged twenty-five, was shot and killed here by Constable Robinson. Hamon, imagining a fancied wrong against the cashier of the Sedan Savings bank, had threatened to wreck the bank with dynamite. He approached the bank building and when Constable Robinson ordered him to halt reached for his revolver. The officer fired first, the bullet from his rifle striking Hamon over the heart and killing him instantly.

Fatal Tenement House Fire. New York, April 3.—One person dead, so badly burned as to be unrecognizable, eight others injured, a panic in which twenty-two families were driven into the street, and a property loss of \$10,000, make up the result of a fire in a five-story tenement house in Irvington street. Of those injured, only two, Mrs. M. Hochman and Samuel Hochman, eight years old, were seriously hurt.

Edwards Succeeds Bittinger. Montreal, April 3.—Major Allessen Edwards, the new United States consul general, took over the office today. Major Bittinger, who resigned the office, has left for his home in Missouri. The new consul general, referring to the influx of Americans into Canada, said that from North Dakota alone 50,000 might be expected this year.

Ship is Probably Lost. Victoria, B. C., April 3.—Further evidence of disaster having befallen one of the lumber carriers from Puget sound was received from the ships Rahane and Invermark. A quantity of wreckage was sighted drifting southwest of Cape Flattery. It is generally supposed that the ship Anconia is the missing ship.
