FANCY WORK

Crocheted Slippers—I often see the call for how to make crocheted slippers. I shall endeavor to give my directions for making. I procure 1 skein of mid night yarn and a good home hook and 2 yards of satin ribbon and a pair of leather soles which can be bought at any shoe store. Directions begin with 15 stitches always taking up back stitch which forms a ridge. In every other row make three stitches in the middle and every other row being plain until you have 17 rows, then crochet 13 stitches on one side making this long enough to go around the sole, then fasten to other side. Make a row of open work consisting of 1 abt and 2 chain around the top then 6 double in open space and 1 s c in next space and so on around the top. Run ribbon in space and tie in a pretty bow. This is directions for a number 5.

A Pretty Match Sate—A thin piece of board 10 by 12 inches is used for foundation, and padded until smooth and two tack barrels, glue to board, varnish all and old or paint some flowers on barrels, put a sand paper star between to scratch matches on, fasten screw at top to hang up by.

LIST OF DEAD NUMBERS 56.

Definite Information Regarding Disaster in British Columbia.

Frank N. W. T., May 1.—It is definitely known that fifty-six people lost their lives here by the sliding of the rocky top of Turtle mountain down upon the sleeping village of Frank Beside killing fifty-six people the slide destroyed the plant of the Canadian-American Coal and Coke company, did a vast amount of damage to the mine and completely devastated about ten square miles of the finest and most picturesque section of Crow's Nest pass. Many of the bodies of the dead will never be found. Some cabins are buried under 150 feet of rock. Only nineteen bodies have so far been recovered. Most of the corpses were mangled almost beyond recognition.

Now that the excitement is partially over there is no doubt in the mind of any one that the disaster was caused by huge landslides and that there was no eruption nor explosion.

BRIBERY CHARGE NOT PROVEN.

Editor Hinman Is Scored by Illinois House Committee.

Springfield, Ill., May 1.—The committee appointed to investigate charges of bribery in the Illinois legislature submitted a report to the house. The report declares that no real attempt was made to bribe Speaker John H. Miller, whose attempt to gavel a traction bill through the house led to a riot and whose explanation was that he believed bribery had been resorted to in the interest of a rival bill. The speaker, in his explanation, made mention of an editorial in the Chicago Inter-Ocean, in this connection the committee condemns George W. Hinman, editor of the Inter-Ocean, for his charges of boodlism relating to traction legislation.

The report was adopted without a dissenting voice. The house also unanimously adopted a vote of thanks to the investigating committee for the satisfactory manner in which it had performed its duty.

GRAIN RATES ARE REDUCED.

Railroads Say Threatened Suits in No Wise Influenced Action.

Chicago, May 1.—As the result of a joint session held in Chicago between the eastern and western railroads and lake lines the rates of grain and grain products were reduced 2 cents per 100 from Chicago to the seaboard, both export and domestic, effective May 11. Some difficulty was experienced in bringing about the reduction by the fear on the part of the traffic men to the effect that such action should be taken as a compliance with the finding of the commission that the rates were too high. The traffic men united in protesting that the commission's threat to institute proceedings if the rates were not lowered had not the slightest influence in producing the result. It was asserted that commercial conditions alone supplied the cause for rate reductions. The mills of the Twin Cities will now, it is asserted, begin working again to their capacity.
