MAY SELECT FOREIGNER

German Cardinal Declared Likely to Succeed Pope Leo.

SIX BALLOTS WITHOUT RESULT.

Third Day's Session of the Sacred College Brings No Election—Italians Split Into Factions—Cardinal Herrero Reported to Be Dying.

Rome, Aug. 4.—After three full days of deliberation, during which six ballots have been taken, the members of the conclave still remain shut up in the vatican without having selected a successor to Leo. Futility of the sixth ballot taken was evidenced by the mute signal that arose from the smoke-stack of the Sixtine chapel.

The signal was watched by another large crowd which occupied the square of San Pietro and which is estimated numbered 15,000. Great disappointment was manifested and when the "little puff of smoke" appeared there were loud cries, not only of disappointment, but even of derision. Rome is becoming extremely impatient over the delay in the selection of the new pope, concerning which there appears to be no definite explanation, owing to the rigid secrecy. News of the grave illness of Cardinal Herrero was received. It is presumed the other aged cardinals are also suffering from their incarceration and the intense heat. Among ambassadors there appears to be a belief that if only for the sake of relieving the aged cardinals, much will likely be sacrificed within the conclave.

On the other hand there are a few pessimistic enough to believe that the hostility among the factions in the sacred college is so bitter that the struggle may be continued for several weeks.

Out of all the rumors and gossip afloat concerning what is transpiring in the conclave the most persistent report is to the effect that the Rampolla and Vannutelli factions have remained compact and that the attempt of one faction to press forward a new candidate in the hope of breaking the strength of the other had failed. The Italia says that the president reached a point which presumes the possibility of the election of a foreign pope, and that Cardinal Kopp, bishop of Breslau, who is most frequently mentioned in this connection, has the support of the German emperor. If this is true the Italia interprets it as a move on the part of the Rampolla faction to win over the Austro-German cardinals from Serafino Vannutelli.

The Osservatore Romano, the organ of the vatican, officially announces that Cardinal Herrero y Espinosa, being gravely ill, has received the last communion. Mgr. Bonifacio Marin, the vicar general of his archdiocese (Valencia), was admitted to the conclave, the door being opened for that purpose with all the prescribed precautions. The record of the admittance of Mgr. Marin was officially recorded in a formal document, which will be placed in the archives.

FAVOR THIRTY-TWO TO ONE.

Recommendation of Monetary Commission for Orient.

Washington, Aug. 4.—A report has been received at the state department from the United States monetary commission which is investigating the question of currency for silver using countries. The commission has visited London, Paris, The Hague and was expecting to leave for St. Petersburg in a short time. According to the report the proposal of the American commission for a ratio of 32 to 1 for a new silver currency for Oriental countries has generally been well received, although the French commission suggested the ratio of 31 to 1.

Catholics in Session.

Atlantic City, N. J., Aug. 4.—The third day's convention of the Catholic societies began with a solemn requiem mass in St. Nicholas' Catholic church in memory of Leo XIII. Rt. Rev. Bishop Messmer of Green Bay, Wis., was the celebrant. President Roosevelt sent a letter of regret. The president of the Sloux congress, Mintani Hanska, addressed the convention in his native tongue. His remarks were interpreted to the convention by Father P. F. Dillman, S. J., the pastor of the Rosebud agency, South Dakota.

The United States geological survey gives out the following information as a preliminary statement of the production of petroleum in 1902: Total production for the year, 80,894,590 barrels, valued at \$69,510,348, or 86 cents per barrel.

WOMAN USES WINCHESTER.

Slays Jealous Husband After He Had Fired Three Shots at Her.

Matewan, W. Va., Aug. 4.—William Adair, a prosperous farmer, was shot and killed by his wife in front of their home on Pidgeon creek, in this county. Adair, who had been in Cincinnati disposing of some timber, returned here rather unexpectedly and found his wife away from home. He went in search of her and finding her in the home of a neighbor, became jealous, and pulling a revolver from his pocket, fired three shots at her, all of which went wild. Mrs. Adair ran into her house, seized her husband's Winchester and returned to the yard just as he was entering the gate. He attempted to escape by running toward the woods nearby, but a bullet from the Winchester in the hands of the infuriated woman laid him low. He fell to the ground, mortally wounded and died without uttering a word. The woman rode horseback to Williamson, where she surrendered and is now in jail. Mrs. Adair comes from one of the wealthy families of Mingo county. She will enter a plea of self-defense, as she claims she saw her husband reloading his revolver and she realized that he meant to kill her.

NEGROES SOUGHT BY MOB.

Indiana Farmers Pursuing Two of Them on Grave Charge.

Hartford City, Ind., Aug. 4.—George Hershoy, an invalid, aged nineteen years, while hunting squirrels on his father's farm, near here, was approached by two prowling negroes. They grabbed the boy, searched his clothing for money, finding none, tore his clothing from him. While one negro held him another mutilated him with a knife. The boy succeeded in reaching home. He told his story and his father gave the alarm, mounted a horse and called for volunteers to wreak vengeance on the fleeing negroes. Two hundred men and boys joined in the chase. Neighboring farms and towns were warned by telephone and the country was scoured. No trace of the negroes was found.

Mrs. Guller Too Ill to Be Moved.

Bunker Hill, Ill., Aug. 4.—Mrs. Ida Guller, held by the coroner's jury on a charge of causing the death of little Ewart Checkfield by giving him poisoned candy, was not taken to Carlinville, county seat, to jail last night because of the protest of her husband and her attorney, who convinced the coroner that she is too ill to be moved. Mrs. Guller's condition is said to be serious. She is bordering on a state of total collapse, and moans and cries constantly.

Dies in Electric Chair.

Ossining, N. Y., Aug. 4.—Antonio Truckowski, a Pole, was put to death in the electric chair at Sing Sing prison. He declared on his way to the chair that he was innocent of the murder of John Shepotiski, a Brooklyn saloon-keeper March 6, and of which he had been convicted. Truckowski was sentenced June 22 and the time elapsing between the pronouncing of sentence and his execution is said to have been the shortest on the state records.

SCHWAB FINALLY RESIGNS

President of Steel Corporation Quits His Job.

RESIGNATION TO BE ACCEPTED.

Severs His Official Connection With Concern Once and for All—W. E. Cory, Recently Appointed Assistant, to Be His Successor.

Philadelphia, Aug. 4.—The Public Ledger says: "Charles M. Schwab, president of the United States Steel corporation, will sever his official connection with that concern today, his resignation as president now being in the hands of the executive committee. This information came to the Public Ledger from one of the directors of the corporation. For months Mr. Schwab's resignation has been rumored, but each time the rumor appeared it was denied by Mr. Schwab himself, as well as by the corporation's directors. The executive committee will meet today and recommend its acceptance. The recommendation will then be turned over to the directors, who will meet later in the day and formally approve it. Mr. Schwab will also, it is said, resign as a director, thus completely severing his connection with the company.

"W. E. Cory, who, on July 1, was appointed assistant to President Schwab to perform the active duties of the president of the company, it is stated will be elected Mr. Schwab's successor, but his duties will be practically the same as those he is now performing—the physical operation of the various plants comprising the corporation."

The outlook for a splendid crop of small grain was never more encouraging than that at the present time. The corn crop too, will average up pretty well. The farmers will have no reason to complain.—Grattinger Times

The rain of Sunday night did considerable damage to the Northwestern railroad track near Logan and Crescent. As a result all of the morning trains were tied up in Denison for some time waiting for orders. At Logan the tracks were washed out and at Crescent the big iron bridge was turned out of line considerable and the tracks washed out. It is said that over four car load of ties and 15 cars of gravel will be required to put the track in shape again.

Mr. Aug. Baetel spent two days at Holstein last week. While there he sold his fine herd of Shorthorn cattle to Mr. N. H. McCutcheon, of that place. Mr. Baetel may decide to retire from his farm in the spring. He is now sixty-three years of age, and feels that the farm work is a little too hard for him, and that he needs a rest. His son Robert had the misfortune to break his leg last fall and has never entirely recovered. This necessitates the hiring of outside help, and Mr. Baetel says he cannot find the right man.
