

# North Platte Valley

A new country but recently penetrated by the Burlington's new extension into Wyoming. Irrigated farms for \$25 to \$35 per acre that will bring \$50 to \$75 per acre in from three to five years as sure as death and taxes.

New towns starting up—new enterprises inaugurated almost daily—numerous irrigating ditches being constructed—one and possibly two beet sugar factories to be built this year.

If you want to get ahead you can't do better than investigate this fertile valley.

Write for folder which tells you all about this new country—it's free.

## LATEST FASHION NOTES.

A Crepe De Chine Bodice.

Many waists of crepe de Chine Louisiana, and peau de sole are seen beautifully embroidered with Corticelli filo silk, which is always found the most suitable for this work. The model shown has the popular mutton-leg sleeves displaying novel pointed cuffs, and the sloping shoulder is admirably produced by a cap-like device extending well out over the shoulder. Embroidery plays a conspicuous part in the making of this pretty little waist.

The fashion in sleeves changes with great rapidity, and new designs are being constantly produced. Shirring which is now rapidly gaining in popularity, is used on sleeves to good advantage. This work always lends itself best to soft materials. One of the new coat sleeves is the paroda or flowing style.
