There has not been very much doing in court thus far this week, although there have been a number of witnesses in town. The North-Western has made a big mistake in taking of No. 21 that went west from Denison at 2.35 in the afternoon. The only train one can take now in the afternoon for Council Bluffs and Omaha is No. 3, going at 1.00. This is a through train from Chicago, and is always loaded. There are eleven coaches, and there has not been a time in three weeks when people did not have to stand in the aisles to Missouri Valley and in some cases to Council Bluffs. It is impossible with the present schedule to make any time, the train is late most every day, and as a result Denison people who have any business to transact at Omaha take the Illinois Central leaving Denison at 3.20 and arriving at Omaha a little after five.

BARGAINS IN BLANKETS

The People's Store,

Speaking of the poor sheriff, and the trouble he had with a negro prisoner, the Bulletin says "Even a sheriff should not be compelled to stand for such things, where all the compensation is 12 cents per meal furnished the prisoner and fees for their charges for that much."
We confess the sense of the above is vague, but laying aside questions of rhetoric, we had understood that the sheriff received \$1800 a year and house rent and fuel and light and \$15 per month and additional fees and 12¢ per meal. Evidently the sheriff is to be pitied and we are surprised that knowing the hardships of the office Mr. Meehan should desire election.
Mr. J. W. Shirk, who works at the Illinois Central had about six bushels of potatoes stolen a few days ago. He had just dug them and had set them out near the pumping station to dry out. He says he is quite sure he is acquainted with the guilty party and that unless the potatoes are returned before next week he intends to publish the name of the party taking them. Potatoes are pretty high and Mr. Shirk thinks he can use six bushels to advantage himself.
No one could construe the remarks of the Bulletin concerning the Sheriff overpayment matter as an attack upon the present county attorney then in office. Will the Bulletin tell its readers if it is not true that the Bulletin article as printed would refer to any other than the democratic county attorney, and if it is not also true that the Bulletin agreed and promised the ex-county attorney to explain and "make it right" in its next issue, and if it kept its word?

OWNS UP AT LAST.
For the first time in the course of the discussion the Bulletin has published figures as to the "trifling" amount overpaid the sheriff. The Bulletin admits the overcharge was \$200. Why not be honest and admit it to have been over \$250?
BAD FIRE AT MISSOURI VALLEY
Elevator Valued at \$300,000 Destroyed by Fire Thursday Morning.
On Friday morning at five o'clock the big elevator owned by the Udyke elevator company was consumed by fire, the total loss reaching nearly \$300,000. The Northwestern railroad company also lost a number of cars in the fire. The cause of the fire remains a mystery, although it is thought it was caused from spontaneous combustion. The elevator was used as a grain cleaner, or dryer, and had customers all over the west. Wheat was shipped great distances to go through a process of cleaning before being placed upon the market. We understand the elevator will be rebuilt 45,000 as material can be secured.
"Theo Kuhl has no private interests to serve through the treasurer's office," says the Bulletin. Speaking of "interests" but perhaps Mr. Kuhl would rather not have that matter investigated.
We are compelled to omit interesting letters from Goodrich, Arion and Jackson. They will be published in our next issue.
