M. M. Bamford was busy all last week removing his stock of dry goods from the store room on Broadway, and he is now nicely installed in the room occupied by the People's Store.

The college boys are taking of organizing a track team and base ball team this spring. Good athletics is the best kind of advertising for a college, and the movement should receive the hearty support of both faculty and students.

Messrs. Swan, Maritz and Joe Mengis, of Kiron, were Denison visitors on Friday, having business at the court house. Mr. Maritz has lately been in Chicago, and while there contracted a severe cold, from which he is just recovering.

At the Baptist parsonage, by the Rev. G. E. Morphy, on Thursday Feb. 25, occurred the wedding of Mr. George A. Marsey, and Miss Mabel Hayes of Manila. The young couple will make their home on a farm near Manila, Ia.

Mrs. Thew left Denison Tuesday evening for Spokane, Washington, where she goes to visit her sons.

Mr. C. F. Kuehnle went to Marshalltown on Monday where he will attend a gathering of the K P's of that city.

Mr. Francis Gable spent Saturday in Denison visiting. He is now traveling on the road for the Oliver typewriter.

Miss Hattie Rowland went to Tama, Iowa on Monday morning where she will visit with Mrs. E. A. Stone for a time.

Mrs. Geo. Vincent, who has been visiting her husband of the Broadway grocery, returned to Logan Monday morning.

Before returning from the missionary convention, E. C. Chamberlin made a flying trip to Indianola to visit Simpson college.

Mrs. L. M. Shaw passed through Denison on Wednesday last enroute to California, where she goes on account of Miss Erma Shaw's health.

Mr. A. P. Bond returned last week from Morehead, where he has been spending several weeks with his daughter, Mrs. Chas. Morehead.

Nick Schluter went to Charles city Monday morning as a delegate to the German Methodist Sunday School and League convention. The convention opened Tuesday, and will last till Friday.

C. F. Hover is fitting up the basement of Kelly's shoe store as a barber shop, and will occupy it at once. Charlie is a pleasant young man, and a competent barber, and will no doubt succeed in his new adventure.

West Broadway is being well filled up with brick and sand for the new hotel. Mr. Nielsen expects the plans in a few days. The building will be commenced in a few days and the work will be pushed as rapidly as possible.

E. C. Chamberlin and Dr. Miller occupied the hour at the Epworth League meeting last Sunday evening, reporting the missionary convention held at Des Moines last week. Both are very enthusiastic over the meeting, and Mr. Chamberlin will organize a mission study class at once.

Mr. Albert Bagge stopped in Denison on Thursday and Friday of last week, and visited with his sisters and old time friends. He also remembered the REVIEW and took away a REVIEW map. He is now located at Quimby, Iowa, where he is engaged in the hardware business, and is doing well.

During Dr. Robinson's absence from his office Thursday afternoon, the office boy tampered with the gasoline stove in the laboratory and succeeded in starting a fire which threatened the destruction of the entire building. Help was called, and the blaze was extinguished without the aid of the fire department.

The report that Agent McCloy will resign his position with the Illinois Central and go on to a Missouri farm, is only partially true. He will take a three months' vacation, beginning about the first of April, and will spend the time on a farm near La Belle, Mo. He does not yet know whom the Central will send to relieve him.

The D class of the high school was represented in each class of declamations at the contest the other night, and they occupied a section of the gallery in a body. The efforts of their representatives were greeted with flying colors and class songs, and, while they did not succeed in making much noise, the idea is a commendable one, and we hope to see more of this spirit exhibited by the high school pupils.

Rev. Mr. Sharpe, pastor of the Presbyterian church, returned from his eastern trip Friday morning. On the trip he visited his Alma Mater, McGill university at Montreal, Canada. He also saw New York, Boston, and other eastern cities. He reports traffic east of Chicago blocked by snow. The snow was ten feet deep in the streets of Montreal, and the railroads of northern New England refuse to handle any freight, except perishable goods. He says he enjoyed the trip immensely, but prefers this climate to that of the east.

In last Thursday's issue of the Register and Leader appears the picture of Ray Randall, who was a member of the state university debating team, which met the Minnesota university team at Minneapolis last Friday night. The Des Moines paper's remarks about the literary record which Ray has made since going to the university were very complimentary, but we do not think they were overdrawn. The question for debate was, Resolved, That the United States Should Abandon the Protective Policy. The zophers won the decision.

The Bell home was the scene of a happy gathering Saturday afternoon. Mrs. Bell expects to move to the farm in the near future, and a'out twenty of the ladies conceived the happy idea of surprising her before her departure. The surprise was complete, but Mrs. Bell responded with her usual hospitality, and the afternoon was passed pleasantly. Before the gathering broke up the surprise was completed by Mrs. J. B. Romans, who, on behalf of the other guests, presented the hostess with an elegant cut glass water set.

Chas. Smutney, of the Hub Clothing store, had a narrow escape Saturday afternoon. He was carrying in his vest pocket some matches which will ignite only when applied to the side of the box in which they are sold. In the same pocket were some pills, and in some manner they combined chemically with the matches, causing an explosion and igniting his clothing. Before the flames could be extinguished a hole was burned through his vest and shirt, and a bank book which he carried in his inside coat pocket was badly scorched. Charley, however, escaped uninjured.

On Friday and Saturday last nearly every other man one would meet in Denison was carrying a REVIEW map, and the maps were the talk of the town. It was a pleasure to see so many of them on the street, and was a source of comfort to the publisher in that his effort to give the people something that they appreciated at so small a price was meeting with approval. We have had a number of prominent men come to the office and remark that we were selling the maps entirely too cheap, that we could just as well get three times the price we were asking for them.
