The Kiron Chronicle Arion News Letter.

Mr. Alfred J. Clauson and daughter, Ethel, visited relatives at West Side Tuesday and Wednesday. A. J. transacted other business in connection.

The school board has decided to erect a new school house in the site of the old one in District No. 1, which is a most foolish move. It will be but a question of a short time when a school house will have to be erected in Kiron, and two school house expenses will have to be met instead of one. In this district all the scholars with the exception of a very few would have it just as near to attend school at Kiron as at the old site.

Victor Linman and son, of near Arthur, visited Kiron on Wednesday, and brought home a load of farm implements from the Swanson machinery establishment.

The Misses Edna and Ethel Hoaglund returned last week from a visit with the Halver Norman family at Denison. They were accompanied home by Harold Norman, who is visiting here for a week.

J. Davis, representing the Sioux City Tribune, spent the past week in this locality in the interest of that paper which is getting to be one of the best dailies published in the state, as well as the cheapest.

Dr. Burrows and wife drove to Schleswig on Wednesday afternoon, viewing the new residences in that town in view of obtaining a model for their new home which they will erect in the spring.

"Cupid" has been somewhat unsuccessful in these parts so far during leap year, but possibly on account of the feminine sex who rules in leap year days. However, he has succeeded in leading two souls to the goal, for whom the wedding bells will soon ring. Sure we'll tell about it when it happens.

Otto Clauson advertises a sale of his farm machinery and stock, and will quit farming owing to the death of his wife. He will move to Kiron where he will reside for the summer at least.

Quite a number attended the debate at the Kiron hall on Wednesday eve.

Missionary Truedson arrived home on Wednesday last from an extended trip throughout Minnesota and Dakota.

Mrs. D. H. Buxton returned on Tuesday to her home in Chicago, after a two months visit with her mother, Mrs. Lundberg, south of Kiron. She was summoned to the bedside of her mother, whom it was then thought, would not live, but who has since recovered.

Miss Emma Bergstrom left on Monday last for Denver, Colo., where she expects to remain for some time. Her many friends were sorry to see her leave.

Mrs. Herman Erickson's nephew arrived Tuesday morning from Sweden. He intends to make the United States his future home.

Wm. Strahn went to Omaha on Wednesday to purchase goods for their trade, and to see _____? Will seem to enjoy his Omaha trips while certain attractions remain there.

Mr. Laub, of Denison, spent Tuesday afternoon in Kiron, shaking hands with our town people. Since the building of our railroad Mr. Laub's visits are not as frequent as in former years.

Gust Johnson and son returned to their home near Bronson, Iowa, after a week's visit with relatives and friends in Kiron.

Albert Berggren arrived on Thursday morning from Chicago, where he has been spending some time.

Peter Naslund came up from Millford Center on Saturday, and spent the day in Kiron.

The old hardware store is being reshingled, and a new floor has been laid. Rumor has it that local parties will open up a line of hardware in the building.

Mr. J. O. Nelson is advertising his house and lot in old Kiron for sale, and intends to migrate for other localities. He will no doubt realize that a "Rolling Stone Gathers no Moss."

O. Graham and wife, of Sac City, arrived on Thursday and will remain in Kiron the greater part of the summer. Mr. G. will assist in the lumber business here.

The Bowman-Kranz Lumber Co. has decided to put in a stock of hardware at their yards here. They are at present fixing up the required rooms. Kiron will, it seems, have four hardware stores which should warrant the trade in this line for miles around.

C. S. Johnson was in Kiron on Thursday last attending to business matters. He intends to take possession of the Tucken hogan business at Boyer the first of next month.

It is indeed a lamentable fact of a certain individual near town who is well fixed and possesses a goodly amount of this world's goods, to see him waste around every spare moment he has from the farm with catalogues and price lists from some Cheap John house in Chicago, trying to induce his neighbors and others to order their groceries, wall paper and other goods through him. It is detrimental to his home town, but he, as well as many others who will send away their cash to department concerns don't seem to stop to consider common sense facts, but will allow themselves to be blinded by what they think is saving to them of a few cents, when in fact if they would allow themselves of a close investigation would find they are money out after paying freight and expenses besides the inferior quality of goods they receive. We still insist on the undeniable fact that good goods can be bought just as cheap at home.

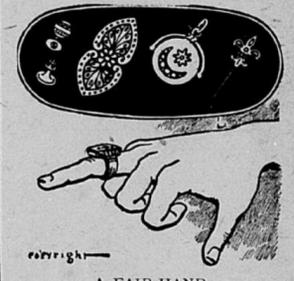

The proposition for a cannery factory having fallen through, Manilla is now after a cheese factory.

The Essex hotel better known as the "Daily House", near the Milwaukee depot in Mason City was destroyed by fire early Tuesday morning, March 22. The fire was discovered in the rear of the building and, while the hotel was only two stories high, such was the quick work of the flames the thirty-seven sleeping inmates barely escaped with their lives.

For week ending March 30, letters for the following persons remained unclaimed for at the Denison Postoffice:

Hauer Johan J. D. Hipple
E. R. Patterson H. E. Safford
Anna Schmidt John Burleigh Todd
When calling for the above please say advertised.

A FAIR HAND
is enhanced in beauty many fold if adorned with becoming jewelry. But its appearance may be spoiled by gaudy, cheap-looking stones. Better no jewels at all than poor ones. No one ever mistakes RICH GENUINE STONES for their tinsel imitations. The wearer may think he's fooling his friends, but he isn't. We keep none but real jewels. Their peculiar luster will tell you that. In intrinsic value they're worth every cent of their price. Diamonds, Band and Set Rings—ladies and gents. The question of raising the teachers' wages in Washington township was brought up before the board of directors last Monday, but when put to a vote it miscarried. It seems too bad, for when one takes into consideration, the various expenses the average teacher has to incur, it can plainly be seen, that the amount paid is not enough.

YOUNG PRINCE

A NEW STALLION

I have recently purchased a horse from L. M. Ayers—a young Percheron stallion 4 years old, weight 1000 pounds—one of the low down blacky fellows of the old type. He is as wide as a wagon box and has the action of any coach horse. Now, gentlemen, before breeding, I would like to have you call and see this horse. I also have the same horses I had last year.

YOUNG PRINCE and VOLCAIN

These horses are well known to you and need no introduction.

Teams and places of stands announced later.
