Quite a progress has taken place among our farmers in plans effected for successful farming. The majority of them have cream separators, as they have learned that the cow is one of the best money producers on the farm. Better chickens are being raised and on a larger scale, and "Biddy" is looked to as a small Klondyke on the farm, and she is getting better care and more attention than in former years. Likewise in the hog line the scrub must go, as there is very little money in raising them since the blooded hogs were put in the yards. It will be we predict but a question of a few years until all the farmers will be up to date as they will discover that there is more money to be made on the farm, than has been made in the past. Then the Free mail and telephone are conveniences added to make farm life and work more desirable than ever.

"If a man can write a better book, preach a better sermon, or make a better mousetrap than his neighbor, though he build his house in the woods, the world will make a beaten path to his door." —EMERSON.

The pen of this eminent American poet and philosopher seldom labored without recording some beautiful truism. The above terse and true saying is implied in all its meaning to the wonderful AHAMO scouring soap—

And as far as the East is from the West— So far is AHAMO the very best.

AHAMO

(Pronounced A-HAY-MO) is the new scouring and polishing soap that is winning fame and praise wherever it has been placed. It is winning this fame and praise honestly, because it is recognized by all who use it as the best that has ever been sold over the counter of a grocery store, and no honest grocer will deny this. It serves the two fold purpose of a scouring and a polishing soap. It is an Omaha product—and it has a yellow wrapper.
