RUSSIANS MOVE SOUTH

Kouropatkin Said to Have Yielded to Wishes of Alexieff.

MAY TRY TO SUCCOR GARRISON

Believed Japs Will Crush Column Sent to Relieve Port Arthur—Czar Alleged to Be Very Much Dissatisfied With Both of Them.

London, May 31.—The reports published in Paris of discord in the interview between General Kouropatkin and Viceroy Alexieff at Mukden and the southern movement of the Russian vanguard below Wafengtien have given rise to rumors that General Kouropatkin has yielded to the wishes of the Alexieff party and is attempting to relieve Port Arthur. Among sober papers here, however, the idea that General Kouropatkin would venture on such a dangerous and hopeless movement is not taken seriously.

According to correspondents at Japanese headquarters up to May 29 nothing important had developed beyond outpost encounters. Japanese troops are largely engaged in building roads and bridges. The Standard's correspondent says that General Kuroki gave a luncheon to foreign military attaches to celebrate the victory on the Yalu, while almost simultaneously the Japanese first army was informed of the Kin Chou victory. The same correspondent indicates the reason for delay in the operations. He says that the force that landed at Takushan appears to have struck the fringe of the rainy season. The downpour has been very heavy.

General Kouropatkin, the Telegraph's St. Petersburg correspondent says, is fighting two enemies, one at home, the other in Manchuria. While his military reputation is undergoing a terrible ordeal, he is also accused of failure as minister of war, to make proper preparations for war. The emperor is alleged to be so dissatisfied that he would dismiss both Alexieff and Kouropatkin were it not that he fears the effect on public opinion.

The general impression among the highest classes is that the fall of Port Arthur ought to denote the end of the war and that if the Japanese succeed in this aim, Russia's best interest would be to make peace, but nobody, the correspondent avers, possesses the moral courage to make such a suggestion to the emperor.

The correspondent also asserts that an agreement is drafted whereby Germany promises armed support to Russia if necessary to prevent England and the United States from attempting to submit the far eastern question to an international congress.

Doubt Japanese Reports. St. Petersburg, May 31.—The reported defeat of Cossacks at Ai-Yang was the only news and almost the only topic of conversation in St. Petersburg. No official dispatches were given out, but officers at military headquarters were reluctant to accept the Japanese dispatches. They think it possible that the Japanese met General Mischenko's command, which has recently been raiding in Korea. It is formed of comparatively raw recruits, though now somewhat hardened by three months campaigning. It is conceivable that they might have been defeated, but General Rennenkamp's forces, who were veterans of that old command which accompanied him on the famous ride through Manchuria, are esteemed here as the hardest riders and the most reckless fighters in the Russian army. Any disaster to them would have a greater sentimental effect than the reverse at Kin Chou.

Colt Sets New Pacing Mark. Pueblo, Colo., May 31.—What is believed to be a world's record was made at a race matinee of the Pueblo Driving club, when Harriska, a yearling colt, owned by J. Sandkuhl, paced a quarter of a mile in 30.4 seconds.
