News About Deloit.

Lightning struck a barn belonging to N. H. Brogren near here and burned it to the ground during the electrical storm Wednesday afternoon the 17th. The farm on which the barn was located was being worked by Eugene Brogren, a son of the owner, whose children were playing in the barn with their goat, and narrowly escaped serious injury. The children, after freeing their goat, gave the alarm, and only the aid of neighbors saved the adjoining buildings from destruction. Four horses, harness and farm implements were lost, also 15 ton of hay. The barn was covered by insurance, but the horses and other property were not. Eugene Brogren's loss will be between four and five hundred dollars, which makes it a great loss for him just starting up in the farming business. Why is it that Ayer's Hair Vigor does so many remarkable things? Because it is a hair food. It feeds the hair, puts new life into it. The hair cannot keep from growing. And gradually all the dark, rich color of early life comes back to gray hair.
