Arion News Letter

Work on the water works is being pushed right along.

On Saturday the Kenwood ball team crossed bats with our boys, the score being some thirty odd scores for our boys to four for Kenwood.

Dr. Beatty and Mr. Geo. Rousch were in town on a matter of business last Friday.

Fred Eggers is doing nicely and expects to go home in a few days.

Benson Smith is building a fine large barn on his farm.

Arion should at once secure land adjoining the town site for a cemetery and set out trees in the spring so that in the future we can have a fitting place in which to lay away our dead.

Rev. Hamilton preached in the church here on Sunday p. m. to a large congregation.

J. B. Romans and R. Shaw Van were in town on business Friday.

John Eggers is out at Crofton, Neb., for a few days.

Eddie Wigg is staying in the drug store while Dr. King is away at the encampment at Des Moines.

Some important business changes are about to be made in our town. Particulars will be given next week.

Dr. Evans has traded his interest in the Arion Telephone Co to L. C. Butler for the farm formerly owned by Mr. Tripp.

Mr. Tom Black and family met with what might have been a serious accident while driving on Sunday. As they started to descend a steep hill the tongue broke and stuck into the ground, tipping the carriage over and throwing the occupants to the ground, bruising Tom's hip and shaking the other members of the family.

Peter Dietz and wife were over from the Soldier on Sunday to see Mr. Eggers, who is in Dr. Coon's hospital. Mr. Dietz is a brother-in-law of Mr. Eggers.

Mrs. Ed. Searles is visiting with her parents, Mr. and Mrs. V. Talcott.

Ed. Gould was in town on Monday.

Saul Miller was working the roads and streets in Arion on Monday.

Mrs. Grant was a Dow City visitor on Monday.

Andy Mackey received a visit from his son and wife who came down from the Oak to spend Sunday.

Claus Hansen is in charge of the excavating work for the cistern and ditches for the water works, and the work is going forward with dispatch.

Arion needs an addition to the present school building and another grade established so that our course will be complete.

DENISON DAY

AT CHARTER OAK

Lecture—"THE LABOR QUESTION"

BY Rev. Dr. Kerby

OF WASHINGTON UNIVERSITY AT 10 A. M.

From a large platform. The purpose of the lecture is to explain the factors in the great struggle between capital and labor, and to suggest the duty of citizens to contribute to the peaceful solutions of the question.

Sioux City Brass Band. Balloon Ascension Daily.

THE FAMOUS TAGGERT FAMILY OF ACROBATS

Ball Game 4 P. M. Charter Oak, vs. Denison

Free Street Entertainment Every Day. Williams' Jubilee Singers.

Prof. Lewis, Great Magician

Charter Oak will entertain big crowds every day of the Carnival, and on Denison Day, Friday, September 2, will simply spread themselves. The excursion train will make fine connection at Arion. Train No. 91, on the Milwaukee will have plenty of coaches to accommodate everybody and will leave Arion at 8:40 a. m.

EVERYBODY SHOULD COME

The Election Bogy.

WHEN the quail begins to jig
On the cold and naked twig,
And the goldenrod is nodding on
The way,
And the chap redeems the frock
That all winter was in hoc
(Signo vinces), and the frisky little gray
Squirrel takes the well browned nut
To his nonstomach heated hut,
And the pumpkin pie is lounging in the
pan,
Then the gay and festive chump
Hurries out to hug the stump
And listen to the
Hot Air Man.

When the big papier mache
Serpent's packed and laid away,
And the city everybody flocks;
When the humble bumblebee
Quakes with the cold as he
Is swinging to and fro upon the phlox;
When the lima bean and pea
Go to seed upon the lawn,
And lush tomatoes wobble in the can,
Then all of us will hump
Ourselves around the stump
And listen to the
Hot Air Man.

When the rabbit, all care free,
Slips in half time joyfully,
And the moth is chewing on the bathing
sult;
When the woodpeckers start to thrum,
And the partridge beats his drum,
When the cricket plays a two-step on his
flute;
When the straw hat's put away
With the duster worn and gray
Beside the gauzy waist and palm leaf fan,
Then with hop and skip and jump
We will hurry to the stump
And listen to the
Hot Air Man.

Wanted All to Know.

"So Miss Antique captured that young man at last. I don't think she liked the way the engagement was announced, though."
"How did she want it announced?"
"Through a megaphone."

Know Him.
"This," said Mr. Flitter, "is the picture of the only girl I ever loved."
"How cleverly," said Miss Wyse as she looked at the portrait, "they do get up these composite photographs!"

SIRES AND SONS.

C. H. Merriam, formerly of Fitchburg, Mass., but now of Honolulu, has been appointed register of conveyances for the territory.

H. H. Vreeland, president of the New York Street Railway company, never uses a free pass on his line, but invariably pays his fare.

Thomas Taggart, the new chairman of the Democratic national committee, has invented a voting machine which has been approved by the Indiana commission.

M. Lebaudy, the "emperor of the Sahara," has bought a beautiful residence in Brussels. It is to be his royal palace, and he proposes to establish a court on a magnificent scale.

Charles H. Corregan, a printer, at present foreman in the composing room of the Daily People, published in New York, is the Socialist Labor party's nominee for president of the United States.

Henry G. Davis, Democratic candidate for the vice presidency, never fails to write a letter on each day to his bachelor brother, Tom. He also receives a daily letter, and for forty years they have kept up this practice.

The value of the estate of the late Mayor Samuel M. Jones of Toledo is roughly estimated by his son, Percy Jones, in probate court, at \$340,000, of which \$325,000 is personal property and \$21,000 real estate. The mayor left no will.

As Mr. Choate has now been American ambassador in Britain longer than any of his predecessors since the late C. F. Adams, who retired in 1869, he is to be presented with a portrait of himself by Mr. Herkimer. A replica of the portrait by the same artist is also to be placed in the embassy.

John D. Rockefeller is a director in but one corporation—Standard Oil. During the past six years he has been gradually withdrawing from the many boards of which he was a member. In 1898 he was a director in four corporations. The next year his son began taking his place.

TOWN TOPICS.

New York has a daily fixture leakage of 44,000,000 gallons of water.

The sea wall at Galveston is completed. It cost \$1,198,318. It is 17,593 feet long, 16 feet high, 16 feet at base and 5 feet wide on top.

The city of New York, in the twelve months ending with last February, for the first time in its history, passed the billion mark in the number of 5 cent fares paid to local transit companies.

Since the opening of its new tunnel, which brings it drinking water from far out in the lake, Cleveland's number of typhoid fever cases has shrunk from fifty-eight a week in 1903 to about two at present.

POLITICAL QUIPS.

There is not much in a name after all. Swallow and Carroll are not standing on a "drink and sing" platform.—Washington Post.

The "rabbit" is a new factor in politics—at least the name is a new one for him. He is to a political convention what a camp follower is to an army.—Kansas City World.

This is the year when 15,000,000 American voters will go to the polls and indicate their preference between the rough rider and the rough swimmer.—Kansas City Star.

THE DARK CONTINENT.

African savages take kindly to American patent medicines.

Natives of Uganda, Africa, use American oil for anointing their shiny black bodies.

When a Uganda native buys an American phonograph and sets it up in his hut he becomes a society leader.

Measuring Drops.

When it is necessary to measure out drops, cut a notch on the side of the cork and put it into the bottle. This will answer the same purpose as a vial with a lip. Reverse the cork when not in use to keep in the strength of the contents of the bottle.

The Ox and the Corn.

According to Jewish statutes it was unlawful to muzzle the ox engaged in treading out the corn, the animal being allowed to eat his fill.

Ayer's

You know the medicine that makes pure, rich blood—Ayer's Sarsaparilla. Your mother, grandmother, all your folks, used it. They trusted

Sarsaparilla

it. Their doctors trusted it. Your doctor trusts it. Then trust it yourself. There is health and strength in it.

"I suffered terribly from indigestion and thin blood. I found no relief until I used Ayer's Sarsaparilla. Four bottles positively cured me."
—Miss E. B. HART, Mt. Vernon, N. Y.

for Rich Blood

Ayer's Pills are gently laxative. They greatly aid the Sarsaparilla.
