# 'TREADEASY'

That's the name of the easiest dressy looking shoe—ever put on the market for ladies. It is made with rubber heel, a cork cushion insole which conforms to the foot at once, it adjusts itself to all the "hills and hollows" in the bottom of the foot. It is well sewed—the soles don't rip off. It don't squeak. It is a dressy as well as a comfortable shoe. In fact, we think the makers of this shoe have certainly put on the market a shoe for people who have sore, burning and tender feet that will be appreciated. We carry them in all sizes and widths so we can fit your foot properly. We would like to have you come in and see them as well as others, in all styles and grades. The "TREADEASY" is sold at one price the world over, \$3.50

Incident weather did not affect the attendance at the opera house Saturday night. One of the largest and most fashionable audiences of the season was out in full force to witness the excellent performance of "Thelma."
