We have been somewhat amused at the frantic efforts of some newspapers far from here to extricate themselves from current gossip. Purporting to belong to the Salvation Army a party consisting of Col. J. Hathaway and wife and two helpers came to Denison last week and held three meetings at the Methodist church. They collected quite a goodly sum from different people. THE MASK BALL.

A large crowd attended the mask ball given at the opera house on Monday evening. The costumes were many of them good and the music was fine. Mr. Richard R. Henderson and Co. come to the opera house Friday evening Feb. 3 in a beautiful dramatization of Marie Corelli's famous novel, The Vendetta. No writer of world fiction is better known than Marie Corelli and The Vendetta is undoubtedly her best work. The scenes of the play are laid in Sunny Italy in that beautiful dreamy city of artistic Naples during the time of the great plague that swept over the country in 1357. The Count Fabio Romani an Italian nobleman was seized with the plague and during a stupor caused by the disease was buried alive in his family vault by his closest and best friend. He came to life in his coffin made his escape from the tomb and reached his palace to find his wife in the arms of her lover. The Vendetta is then sworn. The fright of being buried alive has turned his hair snowy white, his friends do not recognize him and he lives among them to seek his revenge, he woe his own wife and in time wins her away from the man who played him so false, when she learns it is her own husband who has escaped from the grave that she has married she goes violently insane in the very tomb in which he was buried and dies then a horrible death.

Putio an Italian inn keeper who assisted in the vile plot is killed by the Count in a terrible knife fight, the false friend is killed in a duel and so the oath of vengeance is kept.

The Bay of Naples, The Romani Vault, The Romani Chapel, The Beautiful Model Scene, The Knife Fight to Death, The Duel and the mad scene of Nina are features of the play and stage pictures that must be seen to be appreciated.

Every piece of scenery used in the production is carried by the company. The costumes are of the picturesque Italian period of 1357.

The scenery and costumes used in the production cost over five thousand dollars.

Prices 25-35-50.
