THE J. B. ROMANS CO.,

MACHINE TALK NO. 4

HAVE YOU WRITTEN?

HAVE you followed these "Machine Talks" and thought about what to buy. If you have not WE ARE BOTH LOSERS. We want to convince you that we are your sincere friends now just as in the past. That we have the implements you need and that we can help you make 1905 a most successful year.

HAVE YOU CALLED?

Perhaps you hate to write letters as bad as we do. If so, call at our warehouse, there is always someone there to show you all our goods, explain the working of them and to tell you more in five minutes than we could write in an hour.

SEEDERS

The rest of this talk will be about various things. Some that you need right away—some that you will need later. What we said about planters last week applies also to the seeder. Good machines are essential to a good crop. We have two seeders to offer. Both of them we guarantee on our honor. We will stake our reputation on their good work. These seeders are the "John Deere" and the "Gorham." These are cheaper machines, but none as good.

CULTIVATORS

It makes a mighty lot of difference how often you "Go Over" your corn—you know that without the tilling. A light working machine and one that does good work too, will enable you to go over your corn three times while your neighbor, with a poor machine sweats and worries to go over his fields twice, and you can tell the difference when it comes picking time. We have the famous New Departure, the reliable John Deere and the splendid Emerson for you to select from. They are strictly up to date, easily handled and were built a purpose for our hills.

PLOWS

The John Deere, Emerson, Cassaday, Norwegian. You Can Not Find a Better One.

BINDERS AND MOWERS

Here is where the Trust has its big graft, but it did not make either the Hodges Queen binder or the Hodges or Standard Mower. Practice what we all preach and give the trust a black eye by buying one of these machines.

Besides these we have some dandy machines in other lines. The Acme and the Emerson hay stackers and rakes. The Sandwich and the Giant Killer Grinders will be known to you as the best on the market and dozens of other implements.

SEEDS

We have grass seeds of all kinds. Seeds that have been tested and that will grow. Is that the kind you want? Buy judiciously—just what you need—no more—no more—no less. And then we have one more card up our sleeve, for your crops will be so big that you will just have to buy one of those famous old wagons—the oldest and best on earth—the Moline and the Cooper.

Yours for a Bumper Crop,

THE J. B. ROMANS-CO.

Denison, Iowa.

- P. S. We sell Hardware too. Lots of it.
- P. S. Our plumbing department sets the pace.
- P. S. Get your machines all ready so you won't have to come to town when the spring work opens up.
- P. S. Don't forget the New Majestic for the Mrs.
- P. S. No more room.
