It would seem that Denison had been "rummaged" until every thing available had changed hands. The Presbyterian ladies proved that this was not the case however and their sale of last week was most successful, the ladies clearing \$110.00 and many people being benefited by the bargains offered.

The electric light power and heating company of Carroll has gone into bankruptcy. For some time we have been hearing rumors of extravagant management and the failure is not a total surprise. It is to be hoped that under new management the plant may be successfully operated.

As I expect soon to leave the city I would request all those knowing themselves to be indebted to me to settle their accounts at their earliest convenience. Settlement may be made either with me or with Mr. Simon at the Broadway Meat Market. Very Respectfully A. D. RANDALL.

Rob Romans has made up his mind that there is no place like home. He has returned from Simpson College and will attend Denison College this year. Rob was simply so homesick that he could not stand it. It's a mighty good symptom for a boy to be homesick, however, as many are only too anxious to get away from the restraints of home.

Mrs. Fee's many friends will sympathize with her greatly and hope that she may soon recover, but they will also congratulate her that she escaped a much more serious injury.

County Surveyor McHenry whom we mentioned as having been over last week, did quite a little work in the extension of municipal grade. The grade upon Fourth street was extended south to Rabbit Hollow; of Third street to the Willow row; of Fifth street down through Fairview and Third avenue was also leveled up.—Manilla Times.

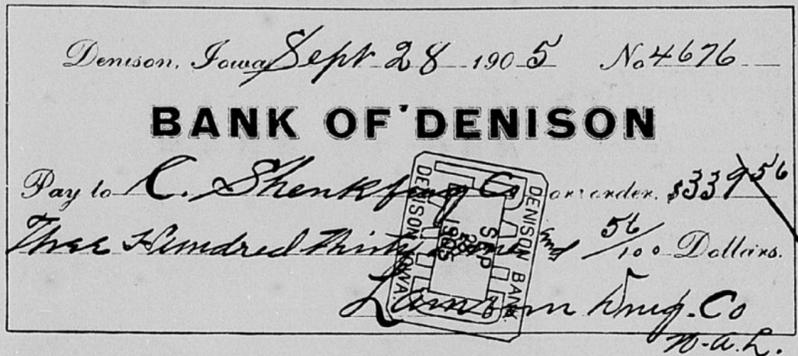

A peculiar and mysterious find was made last Monday near the school house, by the pupils. The discovery consisted of a man's shirt and collar together with a pint bottle, a revolver and a note; the latter stating that the writer was tired of living and had decided to take his own life and further stated that his body would be found across the road in an adjacent cornfield. The note was penciled in a very legible hand and was signed William Shy. The bottle contained a small quantity of liquid, which to all appearances was whiskey, but bore a label upon which was written the word "poison." The revolver was a thirty-two caliber with all the chambers loaded with the exception of one, which contained an empty shell. So far as known, no one has yet gone in search of the supposed suicide, as the general fear seems to be expressed that the matter is simply a practical joke of which the philanthropic searchers would simply make themselves the victims. The articles, however, have been placed in the hands of Constable Cadwell.—Manilla Times.
