# Misses and Children's Cloaks and Furs

Newest of the new--freshest of the fresh in style--latest autumn styles, direct from the factory to our salesroom--which means absolutely correct models, superior materials and finish. But in these days of selling our immense stocks will soon be depleted and we urge early buying to assure yourself liberal selections in the size necessary for the children. To be sure new numbers are added from time to time but not in such numbers as will keep our stock in a filled up condition. Our assurance that nowhere in our trade territory can Cloaks or anything else for that matter, be bought so economically as here, would seem unnecessary in view of the many comments made here daily by hundreds of satisfied customers. **Children's Cloaks range in price from \$1.00 to \$12.00.**

"We are this week in receipt of large consignments of new merchandise purchased by Mr. Balle in the open market last week. **Dress Goods, Silks, Underwear, Novelties of varied description, Carpets, Rugs, Ladies Clothing, Men's Furnishings, etc.** A rare opportunity is afforded here to make your fall purchases from new and clean stocks."
