Manilla

While the two little sons of Thomas Kroger, one eight and one six, who live two miles south of Manilla were playing on their road home from school last night, by running up and down an embankment, about eighteen inches high, both met with a serious and unexpected accident which they will no doubt remember for some time. Almost simultaneously, they both stumbled and fell down the embankment, one breaking his arm at the elbow and the other at the wrist. One fell on the hard ground while the other fell on to a post that was lying in the ditch.

They were both brought to town where their needs were cared for, and it was a very pathetic sight to see one of the little fellows waiting while the doctor set his little brother's arm.

They were both gritty little chaps and went through the painful operation manfully and without taking any anaesthetic. At present writing they are both doing nicely. Another peculiar part of this accident is that the mother had her ankle broken about five years ago and the older brother his arm about three years ago.

Col. Truman Potter and wife of Mason City, Iowa, were in Manilla Monday to call on his sister Fannie Potter.

W. S. Moore and C. F. G. Kehr called at the county seat Monday. Master Everet Dyson while scuffling with his cousin, Earl Roff some, ten days ago, had the misfortune to sprain his knee. No one at that time thought it serious, but the last few days it has been necessary for him to be under the care of the doctor and it is feared that he may have a serious time yet before the limb is entirely well.

Low Miller made a business trip to Omaha last Friday.

Miss Fannie Potter, Assistant Principal of the schools, is very sick, and is threatened with typhoid pneumonia. Miss Potter has been working very hard and her sickness is partially laid to that cause.

Al Gardner accompanied his aged mother as far as Neola, last Monday on her return home from a visit of some two or three weeks with several children at that point.

Roller skating is a great fad in Manilla at present. A strange man dropped into town the other day and leased the Germania hall for three weeks. He also scattered a few hand bills about town to let people know he was here and the way business picked up wasn't slow. Every child, middle aged, and old person in the town was there to try their luck at skating. The result was that now many are going about town with divers injuries. Geo. Hird and George Wright have sprained wrists, Katie Simson fell and hurt her spine and has been under the doctor's care ever since. However, after the first night there has been no serious accidents.

A Cough Syrup which drives a cold out of the system by acting as a cathartic in the bowels is offered in Kennedy's Laxative Honey and Tar. Clears the throat, strengthens the lungs and bronchial tubes. The mother's friend and children's favorite. Best for croup, Whooping-Cough, etc. Sold by LAMBORN DRUG CO.

In Time of Peace.

In the first months of the Russia Japan War we had a striking example of the necessity for prer ration and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold-cold take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept a hand ready for instant use. For sale by PH. A. SCHLUMBERGER.

C. S. Curtis and wife of Warsaw, are expected in Denison today for a visit with E. Gulick and other relatives.
