

NEWS NOTES AND COMMENTS

Dunlap Reporter: The Dunlap high school team was defeated at Jefferson yesterday in a hot foot ball game by a score of 24 to 0.

Dunlap Reporter: Mr. and Mrs. W. H. VanSlyke and daughter Alta went to Manila Tuesday to remain several days at the home of their son, Frank.

Atlanta Constitution: A New York man has invented a "drinkometer" to tell how many drinks a man should take. The saloonist keeps a slate that beats this invention all hollow.

Dunlap Reporter: Martin Barrett and wife, M. W. H. Barrett and C. G. Jessup, wife and son Martin spent Thanksgiving in Denison with Mr. and Mrs. P. D. McMahon.

J. O. Ainsworth will sell you Eureka Stock Food and treat you right. He will also repair your sewing machines in the best possible manner. Give him a call when you need anything in these lines.—Adv. in Coon Rapids Citizen.

Woodbine Twiner: No. 15, the fast mail that arrives here at 1:35 p. m. made the time from Boone to Missouri Valley, Sunday, a distance of 129 miles in 128 minutes, including stops. That is over a mile a minute for the entire distance.

Fort Dodge Post: Professor Lowell having said the canals on the planet Mars are artificial, would it not be a good idea to import a few of the beings who made them and give them charge of that affair at Panama? They, at least, appear to have "done things" according to the professor.

Red Oak Express: The pupils of the Jefferson high school very much wanted a piano in their room so a day was set for them to earn the money to pay for it. Part of them gave a supper and earned \$90 in that way, some of the boys and one teacher sawed and split wood and earned \$10, some husked corn, sold candy, washed dishes, and when their earnings were all in they found they had \$260 as a result of the day's work. Good for the Jefferson high school. Some of those pupils will be heard from again some day.

Editor Wolf of the Alton Democrat got married recently and is now basing engaged in "writing it up." Some latitude is usually allowed the newly wed, but if ever a man made a consummate idiot of himself and seemed to glory in it, it is Editor Wolf. He is one of the would be humorists of the Iowa press. Thank Heaven there are but few of them. Here is a sample of his wit. "She (his wife) is undoubtedly the most adorable little animal that ever happened. Excuse me a moment while I bite her ear." We could better excuse brother Wolf if he would keep still a while and spare the long suffering public. The trouble with most humorists is that in the everlasting effort to sustain their reputation for wit they write yards of stuff that is about as flat as the proverbial pan-cake and not nearly so digestible. We would rather be an insurance president than have a reputation as a wit.

Audubon Republican: The fact that Secretary Shaw is continued a member of the cabinet is the best evidence that he has made a fine record—one that brings honor to himself and the state of Iowa, of which he is one of the most distinguished citizens. Four years ago Governor Shaw was invited by the President to become Secretary of the Treasury without solicitation by himself or anybody else. When the President was inaugurated last spring he again invited the Secretary to remain, and he promised to do so until the end of four years, or February 1, 1906. Now to have the President extend a third invitation and insist upon his giving up his plans to go abroad and remain in the cabinet "until congress adjourns anyway, and longer if you will" is certainly a distinguished and unusual honor, coming from such a man as President Roosevelt. It does seem to us that this action of the President ought to be sufficient to shut off the uncalled for and repeated attacks made by some papers and politicians upon the character and work of Secretary Shaw.

Inter County Journal: A catalogue stove which cost \$27, including freight, has been on exhibition this week in the window of H. A. Miller's hardware store. It was bought by a resident of this city from a well known mail order house in Chicago, has been in use but two years and is now a total wreck. It seems that the gentleman on preparing to move to this city expected to find a range in the house, which was partly furnished, and disposed of one he had. On arriving here and finding none and not wishing to lay out much money, he decided to send for one he saw advertised for "only \$24" and according to the description "as good as any \$50 stove." After using it several months it refused to work satisfactorily and the local dealer was sent for who made some repairs. Then a break bet came apparent and soon after the range gave out entirely. A new one had to be purchased, this time of the local dealer, and when the old stove was removed it was found to be entirely burned through on the under side. It was constructed of the cheapest material with a covering which to the inexperienced eye gave it the appearance of being well made. The party is now out his \$27, as had he purchased a good range in the beginning it would have lasted half a life time. The local dealer if the article proves unsatisfactory will make it good, but the catalogue house ignores you after it gets your money.

RIFLED MAIL SACK FOUND.

Discovery Furnishes Puzzle for Postal Sleuths.

Charter Oak, Io., Dec. 2.—Special The discovery of the rifled mail sack at Arion opens a puzzle to the postoffice department. In the mail sent out of Charter Oak on the evening of November 15 were some important letters that have never been heard from. One of these was a remittance of \$1,600 from the First National Bank of Charter Oak to the First National in Sioux City. When the letter became overdue a government inspector was notified, but no trace was found until this week. A mail sack that had been cut open and rifled was found under the culvert west of the tower house at Arion.

The letter in Sioux City should not have been transferred at Arion, so it could not have been stolen from the platform. Some papers going in the same mail to Denison for record turned up after a ten days' delay. The postmaster here has received word that mail from Marleton was missing that night also. Sioux City Journal.

A safe, pleasant, perfect pill. Sold by Lamborn Drug Co.

CHASED BY A BULL.

An alarming experience with an uncomfortable close tragedy annex, came to the lot of Mesdames Flora Bryan and D. Austin one day last week. They were riding in Jackson township, and to save time took a cross cut through a field in which a herd of cattle were grazing. A grandson of Mrs. Brian, a little fellow, was a third party in the buggy, and his headgear was bright in color. This attracted the attention of the lord of the field and he started for the unsuspecting outfit with an ominous roar. He charged upon the horse striking it on the chest, knocking it off its feet. Were the ladies scared? Ask them, please. Under a well-guided impulse—it was not the time for loamy speculations—Mrs. Brian did the unusual thing to the faithful family nag, striking him a sharp blow with a whip. With a tremendous lunge he struck on his feet and lit with a speed that would have tickled John Gilpin some but it pleased the distressed ladies more than that. The red hat had fallen below the bull's visual horizon and he did not follow. The good dehorning angel saved these ladies more than we or they know, but this we know, the next time this trio go cross-lots they will keep the middle of the road.—Jefferson Bee.

The Coon Rapids Enterprise is setting a great pace with its Simplex machine a pace that the REVIEW hopes to duplicate.

The very cleverest of the many Thanksgiving editorials in our exchanges last week must be credited to the Garner Signal.

In Harrison county the proposition for a new court house was lost by a majority of 559. Harrison ought to be ashamed to let local jealousies stand in the way of a decent and permanent court house.

Our old friend Tom Graham has been retained in his position in the Capitol building at Des Moines. An attempt was made to discharge him but he pulled the Soldier's preference law on his enemies and his vindication was complete. We know Mr. Graham well, he is faithful and competent and altogether a very lovable old veteran. We hope he may retain his position for many years.
