One would think the Laxative idea in a cough syrup should have been advanced long before it was. It seems the only rational remedy for Coughs and Colds would be to move the bowels and cleanse the mucous membranes of the throat and lungs at the same time. ## For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

Send for free sample.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

# Attention!

# Horsemen!

For the season of 1906 I will be on hand with a fine lot of Percheron Stallions.

## 5-Pure Bred Black Percherons=5

All of them perfect beauties, all young, from three to five years old, all of good size and each will weigh a ton when matured. Talk about your peaches and cream, they are the finest ever. I have gone to the best importing barns and have selected horses of good size and bone and without a blemish. The best is none too good for Eggers or for Crawford county farmers. I do not have to go to the back woods to show these horses but I invite the inspection of the public. My horses stand on all four feet at a time, with no stiff joints and all solid bone. I am here to stay in the horse business. I started eight years ago with but one horse. I have bought and sold, constantly acquiring better stock, until now I have five Splendid Percherons, an Oldenberg German Coach Horse and a fine Missouri Jack that has the action of a good saddle pony and weighs one thousand and ten pounds.

Don't raise cheap horses on high-priced land. It don't pay. Raise horses that will sell at \$500 when four-years olds. That's the kind that Eggers has. \$500 is nothing to pay for a good horse, and \$5 is nothing on a good colt that will make you \$75 when ready to be put on the market. I am here with the goods this year, I will be grateful for your patronage and I especially invite all interested to call and see my fine horses

### ARCHIE, No. 34837

He will make the season of 1906 at the old stands of last year, such as Harlow Chapman's, Axle Lindberg's, Charles Shives' and at Denison.

### YOUNG CORBETT, No. 42790

Corbett is a four-year-old. One of the popular shiny blacks. He is not one of the largest horses in the world but he is a splendid type of the Percheron. He is a high actor, in fact when he comes out the

First of April you will be surprised to see him. In bone he has no equal. He weighs 1700, is of medium height and of strong build. He will stand in Paradise and Goodrich townships, the exact places will be named later.
