Does Your Heart Beat

Yes. 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

One frequent cause of bad blood is a sluggish liver. This produces constipation. Poisonous substances are then absorbed into the blood, instead of being removed from the body daily as nature intended. Keep the bowels open with Ayer's Pills, liver pills. All vegetable.

"SINCERITY CLOTHES"

Because

—They are sincerely tailored
—They are made of honest materials
—In a big, sanitary, modern factory; by skilled, well-paid workmen
—They are correct and stylish
—They fit perfectly
—They wear and hold their shape 'til threadbare

—They are not "DOCTORED" into shape by Hot Flat-Iron "dope"

And Because—

A very large percentage of all clothing is doctored up by the Hot Flat-Iron to cover defects in tailoring. Such treatment does cover, but doesn't remove; for the first damp day on which these "doctored" garments are worn brings out these faults and causes them to lose shape and character.

Partial faults that may occur in the making of SINCERITY CLOTHES are permanently removed by Hand Needlework ONLY.

You can buy "Sincerity Clothes" with the assurance that you are getting Style—Perfect Fit—and that they will WEAR, and retain their shape, until worn threadbare; because they are tailored sincerely.

THE OLD RELIABLE CLOTHIERS

Attention!

Horsemen!

For the season of 1906 I will be on hand with a fine lot of Percheron Stallions.

5-Pure Bred Black Percherons=5

All of them perfect beauties, all young, from three to five years old, all of good size and each will weigh a ton when matured. Talk about your peaches and cream, they are the finest ever. I have gone to the best importing Barans and have selected horses of good size and bone and without a blemish. The best is none too good for Eggers or for Crawford county farmers. I do not have to go to the back woods to show these horses but I invite the inspection of the public. My horses stand on all four feet at a time, with no stiff joints and all solid bone. I am here to stay in the horse business. I started eight years ago with but one horse. I have bought and sold, constantly acquiring better stock, until now I have five splendid Percherons, an Oldenberg German Coach Horse and a fine Missouri Jack that has the action of a good saddle pony and weighs one thousand and ten pounds.

Don't raise cheap horses on high-priced land. It don't pay. Raise horses that will sell at \$500 when four-years olds. That's the kind that Eggers has. \$300 is nothing to pay for a good horse, and \$5 is nothing on a good colt that will make you \$75 when ready to be put on the market. I am here with the goods this year, I will be grateful for your patronage and I especially invite all interested to call and see my fine horses

ARCHIE, No. 34837

Percheron Stallion, black, two years old. One of the finest colts I have ever bought. Will make a ton horse at five years old. He is the kind they all like to see, has plenty of action, good muscle, good body, shoulders and hips and stands on four legs.

MONT D'OR No. 8977

Mont D'Or is of the old fashioned Percherons, there are none better today. He is of medium height, well built and of the richest color in the land, a dapple black. He weighs a ton all the time. He will make the season of 1906 at the old stands of last year, such as Harlow Chapman's, Axle Lindberg's, Charles Shives' and at Denison.

YOUNG CORBETT, No. 42790

Corbett is a four-year-old. One of the popular shiny blacks. He is not one of the largest horses in the world but he is a splendid type of the Percheron. He is a high actor, in fact when he comes out the

First of April you will be surprised to see him. In bone he has no equal. He weighs 1700, is of medium height and of strong build. He will stand in Paradise and Goodrich townships, the exact places will be named later.

VULCAIN, No. 26841
