

Talk About Enjoyment

You are missing some that you know not of if you have not got a **Victor Phonograph** There are people right here in Denison who have come in and thanked me for selling them the new **Taper Arm Victor**. They say they never have known what real ideal pleasure was until they had all of this fine music at their command. You can get any thing in records from the Great Kubelick, Caruso, Patti, Schumann-Heink down to the Patent Medicine Fakir. And all of them at your fingers ends. And another matter I wish to impress on you is, not to buy a camera until you see the line we will have in a few weeks. And last but not least, **Dont** send away for a watch, Come in and get my prices first and then decide. Also bear in mind that our watch repair department is the right place at all times to have your watch repaired

THE FOOD YOU EAT.

The average consumer of baking powder does not know that a reaction occurs in the process of baking.

Whenever a chemical reaction takes place, the nature of the original materials is entirely changed, so that the substances which remain in the food to be eaten are very different from those which composed the baking powder before baking. For this reason the statement that a baking powder contains alum or cream of tartar is worthless so far as informing the consumer as to what he eats.

What the consumer wants to know is what goes into his stomach, not what is in the can. Food prepared with a cream of tartar baking powder does not contain any cream of tartar, just as food prepared with alum baking powder is free from alum. Some baking powders leave large quantities of Rochelle Salts in the food, which is a dangerous drug and is produced by the chemical combination of bicarbonate of soda and cream of tartar; others leave lime, ammonia, etc.

Calumet Baking Powder has been for so many years the standard of all that is good in baking powder that its purity needs no defense. There is just one fact that will bring this point forcibly to the reader's mind. This state, in common with nearly every other state in the Union, now has a very stringent pure food law which in no uncertain terms prohibits the manufacture and sale of any food substances injurious to health. Calumet Baking Powder complies with the pure food laws of this and all other states.

Why should the consumer pay forty-five or fifty cents per pound for baking powder, when the best baking powder in the world can be made to retail at twenty-five cents per pound (the price asked for Calumet Baking Powder) and leave a fair manufacturer's profit? The manufacturers of Calumet Baking Powder have for years made a standing offer of \$1,000.00 for any substance injurious to health found in food prepared from it.

Bread made from Calumet is entirely free from Rochelle Salts, Alum, Lime Ammonia or any injurious substance; therefore it is recommended by leading physicians and chemists.

MANILLA SEE GHOSTS.

Spiritualist and Fortune Teller Fairly Capture our Neighbors.

A spiritualist and fortune teller traveling under the name of Max Hoffman, and giving his permanent address as Des Moines, billed the town for a lecture and seance at the opera house last Friday evening. His audience was not large but he succeeded in convincing those present of his powers so strongly that his fame spread greatly the following day during which he held out at the Gardner House and peered into the future of his visitors at \$2-per peer. From the number who availed themselves of the opportunity to look behind the mystic veil, it is estimated that his seership took not less than \$60. out of the town. This may, at first thought, seem like a good sized sum to pick up in so short a time and apparently so easily, but it should be borne in mind that if Mr. Hoffman has the power he claims and that his patrons seem convinced he possesses, his profits are infinitely small in comparison with the great good he has doubtless done in the place. The value cannot be overestimated of having one's future revealed so that it is possible to foresee all coming events and thus be enabled to make the best of life by taking advantage of and preparing for them in advance.

It will be well for the doubting Thomases to keep an eye upon those who availed themselves of the opportunity of consulting Mr. Hoffman. There is no reason why they shouldn't all become millionaires now in a very short time.—Manilla Republican.

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

You must look well after the condition of your liver and bowels. Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Act gently, all vegetable. The dose is only one pill at bedtime.
