Pete O'Meara of Rodney visited in Dow City several days last week.

You are not up-to-date if you have not sent one or more of the 4th of July "post card" to friends. Besides the appropriate picture they have the following verse: "Dow City always has a good celebration. Why? First, they have a beautiful park of ample size to hold the crowd, all of which is nicely shaded, and every foot of which is sodded with blue grass like a lawn. Second, the race track and ball park are only a few steps from the celebration grounds, making tiresome walks through the hot sun unnecessary. Third, everybody in town pulls together to make the celebration a success. This year an extra effort has been put forth to out do any former years and an excellent program of band music, singing, speaking, races, fireworks etc. has been prepared which will satisfy all. The ball game between Defiance and Charter Oak will alone be worth coming many miles to see. Many other attractions will be here which I haven't room to tell you of. Meet me at Dow City at 9:00 in the morning. Send some of these cards, they cost you no more than postage.

A woman worries until she gets wrinkles, then worries because she has them. If she takes Hollister's Rocky Mountain Tea she would have neither. Bright, smiling face follows its use. 35 cents, Tea or Tablets, R. Knaul

How to Break Up a Cold.

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's cough remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and restores the system to a healthy condition within a day or two. For sale by Ph. A. Schlumberger.

WORTH REMEMBERING.

There are three entirely different kinds of ingredients used in making the three different varieties of baking powders on the market, viz:—(1) Mineral Acid or Alum, (2) Bone Acid or Phosphate, and (3) Cream of Tartar made from grapes. It is important, from the standpoint of health, to know something about these ingredients, and which kind is used in your baking powder.

(1) Mineral Acid, or Alum, is made from a kind of clay. This is mixed with diluted oil of vitriol and from this solution a product is obtained which is alum. Alum is cheap; costs about two cents a pound, and baking powder made with this Mineral Acid sells from 10 to 25 cents a pound.

(2) Bone-Acid, or Phosphate, is the basis of Phosphate baking powders and the process is fully described in the patents issued to a large manufacturer of a phosphate powder. The U. S. Patent Office Report gives a full and exact description, but the following extract is enough:

"Burned bones, after being ground, are put into freshly diluted oil of vitriol and with continual stirring and in the following proportion," etc.

From this Bone-Acid phosphate baking powders are made; such powders sell from 20 to 30 cents a pound.

(3) Cream of Tartar exists in all ripe grapes, and flows with the juice from the press in the manufacture of wine. After the wine is drawn off the tartar is scraped from the cask, boiled with water, and crystals of cream of Tartar, white and very pure, separate and are collected. It differs in no respect from the form in which it originally existed in the grape. Cream of Tartar, then, while the

most expensive, is the only ingredient that should be used in a baking powder to act upon the soda, as its wholesomeness is beyond question. Cream of Tartar baking powders sell at about 40 to 50 cents a pound.

Such are the facts, and every one, careful of the health of the family, should remember this rule:—Baking powders selling from 10 to 25 cents a pound are made of Mineral Acid; those selling from 20 to 30 cents of Bone Acid; and those from 40 to 50 cents of Cream of Tartar made from grapes.

South Omaha, Neb., June 26th, 1906.

The cattle market has been in good shape during the past few days, receipts have been more moderate, and prices are now 15 to 25 cents higher than the early part of last week.

Best cattle have been selling at \$5.30 to \$5.50; good kinds \$4.85 to \$5.15; fair to good \$4.50 to \$4.85. There has been good inquiry for dry-lot cows and heifers, and these have also shown a little strength, good kinds selling at \$4.00 to \$4.60; fair to good \$3.50 to \$4.00; grassy kinds have been in little favor and gradually working lower, and the best have sold at \$3.00 to \$3.50; fair to good \$2.40 to \$2.90; canners are almost unsaleable at \$1.50 to \$2.00. Corn-fed bulls have sold strong at \$3.50 to \$4.00, but grass kinds are all of a quarter lower than a week ago, quotable at \$2.65 to \$3.00. Veal calves have also suffered a decline and the best kinds sell around \$5.75. Stockers and feeders have remained inactive during the week, light supplies but there has been little call, \$3.65 to \$3.85 getting the better kinds with fair to good grades at \$3.40 to \$3.65.

Hogs are working higher again under the influence of moderate offerings and prices are all of a dime higher than the close last week. The bulk sold today at \$6.37 1/2 to \$6.40 with top at \$6.45.

## Our New Bottled Beer

We give hearty thanks to all who were kind enough to send us a suggestion, but there could only be one winner. The lucky man is Mr. R. Kearney, of Sheridan, Wyo.

He suggested "Luxus," which is taken from the words luxury and luxurious, and the committee composed of R. H. Kastor of H. W. Kastor & Sons Advertising Co., Chicago, Ill., A. D. Mayo, General Advertising Dept. Record-Herald, Chicago, Ill., and Samuel S. Sherman, Business Mgr. of the Inter Ocean, Chicago, Ill., who were appointed to pass on all names, felt that nothing else was quite so good as this, though there were thousands of mighty good ones. Some of the names suggested could not be considered, as they were already in use by other brewers; others were repeated so often that had any of them been selected, it would have been impossible to determine to whom the prize was to be awarded.

Mr. Kearney says it's easy money, but it's worth every cent of it to us.

Watch for the appearance of

### The Best Beer Brewed

It is light in color and is not heavy or sticky—but delightful with meals or for refreshments. It is not only a pure beer—it is not only made right—but it is made expressly to suit your taste. We have brewed beer in Omaha for 50 years—long enough to learn what the public wants, and long enough to learn how to make beer that pleases the public taste exactly. We are not trying to force our taste upon you, but are catering entirely to your taste.

We know how good "Luxus" Bottled Beer is now—You will know in a few weeks.

We thank you again for your suggestions, also for the interest you have taken in our name contest.
