PURITY OF MEAT ASSURED

INSPECTION WILL BE EXTENDED FROM PASTURE TO PACKAGE.

LAWS TO BE STRICTLY ENFORCED

Secretary Wilson Takes First Step to Restore Faith in Packers—Tells How Thorough, With Increased Power, Inspection Will Now Be.

Washington, July 3.—Secretary Wilson of the department of agriculture has decided to postpone his annual vacation until he has completed the organization necessary to put into operation the new meat inspection law. By direction of the president, Secretary Wilson issued the following statement:

"American live stock are the healthiest in the world. The great ranges of the west produce herds of cattle in which the percentage of disease is remarkably small and the federal government is steadily reducing by approved scientific methods this small percentage. The inspection of animals before and at the time of slaughter has always been thorough. It is true that the department of agriculture has heretofore lacked the power and the money to provide for an efficient supervision and sanitation of the methods of preparation of canned meat food products. The legislation which has just become effective provides the department with adequate power to carry it into effect. Supervision inspection will be extended from the pasture to the package. The federal stamp upon the can will be a guarantee not only of the healthfulness of the animal, but also that the product was prepared in sanitary surroundings and with the addition of no deleterious chemical or preservative. Any meat food product bearing the government stamp will be fit for food. With this law in operation it may be accepted as a fact that for healthfulness and purity the prepared canned product will compare favorably with the fresh meat of the United States, which is and always has been the finest in the world. The new law is comprehensive, the means for its enforcement are ample and its execution will be thorough. People at home and abroad may use our meats in confidence."

Mr. Stevens will continue as chief engineer of the commission, but will not receive any extra compensation for his services as a member of the commission.

HIT FOR KODAKING PRESIDENT

Photographer Causes Arrest of Secret Service Officer Sloan for Assault.

Oyster Bay, N. Y., July 3.—James Sloan, chief of the president's secret service corps, was placed under arrest as he came from duty at Sagamore Hill. Jack McQuade, the village constable, served the warrant, which had been sworn out by Clarence Legendre, a New York photographer, charging Sloan with assault in the third degree. An appearance was entered at once before Squire Franklin, and Sloan was released on his own recognizance to appear for trial next Monday. The arrest was the result of interference by the secret service men in the endeavor of Legendre to take a snapshot of the president as he entered his carriage at the station here. Legendre claims Sloan hit him in the face after the photograph was taken and the president had driven away. The secret service men say they have previously had trouble with Legendre.

IMPORTANT INSURANCE DECISION

Raise in Rates of Catholic Mutual Benefit Association Illegal.

Buffalo, July 3.—An important decision governing the question of raising the rates in the Catholic Mutual Benefit association was handed down by Justice White in the supreme court in the case of Michael Dowdall against the supreme council of the Catholic Mutual Benefit association. Mr. Dowdall brought suit to recover the amount of money paid into the treasury of the Catholic Mutual Benefit association since June 1, 1904, in excess of the rate paid by him previous to that time, and upon this suit hinged the legality of the increase in the rates adopted by the supreme council at the 1903 convention, which was held in Pittsburg.

Justice White, in his decision, holds that the high rates imposed upon the members of the Catholic Mutual Benefit association at the 1903 convention are null and void on the ground that a certificate of insurance is a contract and that the rates announced in the certificate cannot be increased. Justice White also issued an order directing the defendant to pay to the plaintiff all moneys paid into the treasury of the association by him in excess of the rate paid by him previous to the increase.

Salisbury, England, July 3.—The embalmers are busy and by tomorrow the majority of the bodies of the score of Americans who lost their lives in the wreck of the Plymouth express will be prepared for their return for burial in the land they left so recently in the fullness of life and hope. The inquest was a prolonged and tedious formality, which utterly failed to give any idea of the cause of the accident. No questions on that point were asked and the subject seemed to be avoided.

Tries to Exterminate His Family.

Lucedale, Miss., July 3.—In an attempt to exterminate his family, Charles Brewer shot and killed his wife and his mother-in-law, wounded his wife's grandmother and his infant

child and then shot and killed himself. Brewer's wife left her home a few days ago, alleging that he was treating her badly. She went to her mother's home, where Brewer called and entreated her to return to him. He became angry when his wife refused to leave her mother's house, and drawing a revolver began shooting.

Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera, and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim, is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by Ph. A. Schlumberger.
