

FIRE! FIRE! FIRE!

Thanks to the promptness of the night watch, L. M. Baer and to the splendid work of Denison's Volunteer Firemen, our store was saved and but very little damage was done by the fire on Saturday morning.

There Will Be No Fire Sale But the special low prices on everything in the furniture line will prevail all this month of August. We are striving to win your trade, and all we ask is the opportunity to prove that we sell better furniture at lower prices than any one else in Crawford County.

There is no great moral reform wave sweeping over Denison but a number of our boys have decided against Sunday baseball. They went out to Coon Grove last Sunday and the big Hoodoo got in his work in great shape. If you see any of the boys limping around, or with stiff arms or their heads bandaged you will know that they are among those who have "sworn off" since Sunday P. M.

John Woodruff returned on Monday from Shoshone, Wyo., where he went to register for the government land, to be opened up on August 4th. Mr. Woodruff says there are very many people at Shoshone, each one expecting to draw a good prize out of the 200,000 acres of government land. "This land", he says will be worth as much as \$50. per acre as soon as the government commences to irrigate it, which they intend to do soon after the drawing." He further added, "the town of Shoshone is at present infested by a number of gamblers, which are always found when things of this kind happen, but I think things will be put in order after August 4th."

WEATHER-CROP BULLETIN.

The week was slightly cooler than usual, though the day temperatures were normally high and generally favorable for harvest operations. The rainfall was extremely variable, ranging from a tenth of an inch to over two inches. Except in very small areas, the amount of soil moisture is ample for present needs of the staple crops.

The conditions were favorable for finishing the harvest of hay oats and barley, and in the larger part of the state these crops have been put into shocks, stacks or barns. Threshing barley and oats is in progress, and reports of yield show fair returns. In the spring wheat districts that crop is ready for harvesting, with good prospect as to yield. The corn crop still maintains its high standard in all sections, giving promise of more than an average yield. The pastures are very good in all districts, except in localities where the rainfall has been deficient for several consecutive weeks. Late potatoes have been benefited by recent showers. The apple crop is doing fairly well.

ADVERTISED LETTERS.

Chas. Morgan, John Weaver, Winifred Smith, Luther Traver Ed Browning, F. W. Meyers, Postmaster.

There is nothing so pleasant as that bright, cheerful, at-peace-with-the-world feeling when you sit down to your breakfast. There is nothing so conducive to good work and good results. The healthy man, mind and body is a better fellow, a better workman, a better citizen than the man or woman who is handicapped by some disability, however slight. A slight disorder of the stomach will derange your body, your thoughts and your disposition. Get away from the morbidity and the blues. Keep your stomach in tune and both your brain and body will respond. Little indiscretions of overeating can be easily corrected and you will be surprised to see how much better man you are. Try a little Kodol For Dyspepsia after your meals. Sold by Lamborn Drug Co.

STRAWBERRIES ALL SEASON.

An Iowa Scientist Who is a Genius in Horticulture.

Howard Rockhill of Conrad, Grundy county, living east of Eldora, is known as the plant "wizard" and by continual experimenting has been enabled to produce some new species of plant life which have been attracting much attention, and which will furnish to lovers of the strawberry this popular fruit the year around.

The latest find of the young scientist of Conrad, is the propagation of a new species of strawberry plants. He has growing at his place near Conrad some hybrid strawberry plants which are indeed wonderful, being nothing more nor less than ever-bearing plants that throw up fruit blossoms from the runners, repeating the phenomena from one to seven times in each plant, making for the vegetable world something unheard of or seen before. From one plant the Conrad scientist may gather blossoms and on the stem find green buds, green berries and berries half ripe. In producing a plant that will grow berries all the season through and in such abundance as indicated by the runners, yielding fruit and blossoms in several places continually from spring to late fall, when frost comes. Mr. Rockhill believes that he will be enabled to produce fresh strawberries the year around.

\$100 REWARD \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

HARTJE TRIAL NEARING END

Attorneys for Pittsburg Millionaire Unexpectedly Close Their Case.

Pittsburg, Aug. 1.—Attorneys for Augustus Hartje, who is seeking a divorce from his wife, Mrs. Mary Scott Hartje, somewhat unexpectedly closed their case. All the evidence in support of Hartje's petition is now in. Attorneys for Mrs. Hartje asked for and obtained an adjournment until morning to prepare their plans for presenting evidence in rebuttal.

Augustus Hartje on the stand denied the charges made by Madine regarding the blonde woman episode and that he had offered Madine money to testify that a man was at the Hartje home alone with Mrs. Hartje while Hartje was away. Hartje admitted owning a house at which he was said to have visited Josephine Wright. He swore that he did not know the woman and did not know the character of the house until it came out at the trial.

The much disputed Helen Scott letters were admitted as evidence. A lengthy and heated argument preceded their admission, which is regarded as a signal victory for the libellant. These are the letters purporting to be from Helen Scott to her sister, Mrs. Hartje, which counsel for the libellant assert prove that Helen was a go-between for "Tom" Madine, one of the coachman correspondents, and Mrs. Hartje.

QUICK JUSTICE IN KENTUCKY

Negro Assailant of White Woman Legally Executed at Mayfield.

Mayfield, Ky., Aug. 1.—The hanging of Allen Mathis, the negro who criminally assaulted Miss Ethel McClain last Wednesday night, took place at 8 o'clock last night in a legal manner in the yard of the county jail. Fully 10,000 people were on the scene, but only a few hundred could see the execution, although almost the entire fence surrounding the scaffold had been torn down by the enraged citizens while the trial was going on. It was only fifty minutes from the time the jury was sworn in until the negro was pronounced dead. Mathis arrived here at 6:40 p. m. from Louisville in charge of deputy sheriffs and the military company of Hopkinsville. The local military met the train and the negro was marched to the courthouse. Several attempts were made to seize the negro and he was twice in the possession of the mob, but the soldiers finally succeeded in forcing their way with their prisoner to the courthouse, where Mathis' trial was at once begun.

There were rumors that another negro in jail from Hickman county, charged with a similar offense, was to be lynched, but it is understood that he was spirited away.

Prospectors Dying from Heat.

Los Angeles, Cal., Aug. 1.—According to reports which have reached this city, terrific heat conditions are prevailing in the Iryo county gold fields and adjacent desert, and mining prospectors are dying daily from the heat. W. H. Adams, a mining engineer, who left Los Angeles July 6 for the Panamint range and who has just returned to the city, states that eight prospectors were brought in dead from the heat while he was in the region. The heat, he says, is terrible, and un-

abated day or night. In the desert section lying south of Redland, he says, the mercury went up to 160 and could record no higher.

Survivor of Dietz Fight.

Milwaukee, Aug. 1.—A special from Raddison, Wis., says that after crawling on his hands and knees for a great distance, Duyo Rogich of Milwaukee, wounded in three places by Clarence Dietz, reached the homestead of Chas. Johnson and was later carried into Winter, where he secured medical attention. Slight hope is entertained for his recovery. He had been terribly exposed when he reached the Johnson place and his wounds had become filled with dirt.

Commercial Law League Meets.

Ashville, N. C., Aug. 1.—The convention of the Commercial Law League of America met here. A meeting of the executive committee was held and league matters were discussed.
