When a horse is so over worked it lies down and in other ways declares its inability to go further, you would consider it criminal to use force. Many a man of humane impulses, who would not willingly harm a kitten, is guilty of cruelty where his own stomach is concerned. Overdriven, overworked, when what it needs is something that will digest the food eaten and help the stomach to recuperate. Something like Kodol For Dyspepsia that is sold by Lamborn Drug Co.

IOWA SEED CORN DAY

Second Wednesday in October is Day Fixed for Future

How many of our farmers remembered Prof. Holden's golden words of advice about gathering their seed corn. October 10th was the day named when the seed corn should be gathered. If you forgot this advice it is not too late to benefit by it now.

The Iowa Corn Growers Association has been formed having as one of its purposes the impressing of this advice upon every farmer. The Association has adopted the second Wednesday in October as SEED CORN HARVEST DAY.

Prof Holden's Advice.

"If every ear of corn that is to be used for seed in Iowa next year could be harvested this fall not later than October 10th and hung up where it will dry out thoroughly before the bitter cold freezes of November, it would add millions of dollars to the wealth of Iowa."

"Let us go into the best and earliest planted fields, and select well matured ears from the most vigorous stalks, strip off their husks and hang in attic at once where the circulation of air is good and procession is had from the cold freezing weather of November and December. On the 228,000 Iowa farms an average of about 40 acres is devoted to the growing of corn, and while six bushels of good seed is sufficient to plant this, let us abundantly provide ourselves and save two or three times this amount, as some pests may call upon us to replant, or our neighbor may be needing some seed. Remember, it takes only about a dozen ears to plant an acre. Each ear should have special care."—P. G. Holden.

MAGOON REACHES HAVANA

GENERAL AMNESTY IS EXTENDED TO POLITICAL PRISONERS.

TAFT OUTLINES DUTY OF ARMY

American Forces in Island Must Not Engage in Conflicts With Cubans and Must Show Them All Possible Courtesy—Rebels Lay Down Arms.

Havana, Oct. 10.—Charles E. Magoon, the newly appointed provisional governor of Cuba, arrived here. Coinciding with his coming Governor Taft gave out a general decree, proclaiming amnesty not only to the rebels, but to all persons charged with political offenses or crimes in any way connected with the revolution. He also issued orders covering the attitude of the American marines and soldiers toward the people of Cuba.

The officers of marines stationed in various localities are advised that they are not expected to take part, in an active way, in the suppression of disorder unless extreme emergency arises in which it is absolutely necessary for them to protect life and property. The duties of the marines are generally limited to tendering their good offices between the conflicting elements and the prevention of that friction which, in the high state of tension between the political parties, is inevitable during the present crisis.

The order concludes as follows: "The president of the United States deems it of the utmost importance that the American forces do not engage in conflicts with Cubans, but that disorders by Cubans be suppressed by Cubans. It is also expected that the officers and men, both of the army and the marine corps, will exert every effort to show all courtesies to Cubans possible of all parties and avoid in any way injuring their sensibilities."

The order makes it plain that the marines will remain in the island for the present, as an adjunct to the infantry.

Governor Taft said that practically all the American warships now in Cuban waters soon would be withdrawn.

The appearance of yellow fever at Cienfuegos caused the immediate issuance of an order by Colonel Barnett, directing that the American marines be removed from that city. The men were marched aboard the ships.

The disarmament commissioners in Santiago report that all the insurgents in that province have been disbanded, with the exception of one band, which is in an inaccessible region near Bayamou. Governor Taft has ordered the cruiser Des Moines to embark the commissioners at Santiago City and to land them at Manzanillo, whence they will be able to reach the insurgents' camp.

DEATH TO REBELS AND JEWS

President of Union of Russian People Makes Remarkable Address.

Odessa, Oct. 10.—President Dubrov in of the Union of Russian People made a remarkable address here. He spoke to a band of 300 armed members of the union, who had carried him on their shoulders to the railroad station on his departure for Kiev, and said:

"In the name of our beloved emperor I bless you. The holy Russian cause is the extermination of rebels. You know who they are and where to find them. Clear the Russian soil of them. The Russian people want neither constitutions nor parliaments, but orthodoxy and autocracy. Go ahead brothers; death to the rebels and Jews."

After his train had left the band of 300 rushed down the principal streets of the city, shouting: "Death to the rebels, death to the Jews."

All the shops were at once closed and the Jewish population was in a condition of panic and terror throughout the night. Measures taken by the prefect, however, prevented further disturbances.

SPANISH WAR VETERANS IN LINE

Parade Feature of Annual Encampment at Washington.

Washington, Oct. 10.—The parade of the United Spanish War Veterans was the feature of the annual encampment and reunion of that organization and the line of march was thronged by cheering thousands. President Roosevelt, who is a member of the organization, did not review the parade, it being stated at the white house that he was unable to do so because of official duties.

When the president and Mrs. Roosevelt went out riding they drove out of the white house grounds just as the rear of the parade was passing. There was a convenient break in the line of march, through which the president's carriage was driven. While he was crossing the avenue in this breach in the line he was recognized by the marchers and was cheered, the ovation continuing as the carriage proceeded up on Madison place. The president acknowledged the cheers by standing in his carriage with uncovered head, bowing to the veterans.
